VOL. XIII—NO. 3913. NEW-YORK, FRIDAY, APRIL 8, 1864. PRICE THREE CENTS.

DEPARTMENT OF THE GULF.

Advices from New-Orleans, via Cairo, to March 29.

Our Forces Advancing Toward Shreveport.

The Election Carried by the Free State Party.

The Rebel Ram Tennessee Sunk by a Squall.

THE RIVER STEAMER J. H. RUSSELL BURNED.

CAIRO, Wednesday, April 6.

The steamer *Atlantic*, with New-Orleans dates of the 29th of March, has arrived here.

The election in Louisiana, on the 28th, for delegates to the Constitutional Convention, resulted in the complete triumph of the Free-State party.

The steamer *J. H. Russell*, with seven hundred bales of cotton and a quantity of cattle and hogs, was consumed by fire at night, at Poquemine.

The steamer was on her passage from Vicksburgh to New-Orleans, and took fire from the sparks of her torches.

The mails from Alexandria, together with the dispatches of Gen. LEE to the headquarters of the Department of the Gulf, were also burned.

A passenger on the steamer, by the name of THOMAS, is missing.

The boat was valued at $80,000, and was not insured.

The brig *Mary Feliciti* was wrecked near Pass à l'Outre on the 24th of March. The passengers and crew were saved.

The rebel ram *Tennessee* was struck by a squall on the 1st inst., while lying near Grant's Pass, causing her to keel over and sink. But two feet of her smoke-stack now remains visible. Her armament will prove a heavy loss to the rebels. It consisted of six 100-pounder rifled Parrotts, and nearly as many small pieces.

All is well with our fleet, though we have had some very bad weather.

At Alexandria, on the 27th, it was reported that all was quiet, with the exception of occasional skirmishing.

The rebel force near there was reported to be twenty thousand strong. It was supposed that their intention was to fall back about fifty miles, and there await an attack from our forces.

Our gunboats bound for Shreveport had succeeded in getting over the shoals.

A land force left Alexandria on the 27th, destined for Shreveport. The force was under the command of Gen. SMITH.

One hundred and fifty refugees arrived from Texas at New-Orleans on the 28th.

The steamship *Morning Star*, from New-York, had arrived with many passengers and $350,000 in specie.

Gov. YATES came up on the *Atlantic*. Before leaving New-Orleans the Illinois troops gave him a reception. After reviewing the troops, his State was formally announced.

Gov. YATES then proceeded to address the soldiers, congratulating them on their appearance, and eulogizing them for their noble conduct in the many battles they had passed through.

Other speeches were made by Gen. BANKS and Gov. HAHN, of Louisiana.

There was but little business doing in New-Orleans.

The cotton market was a stand off between buyers and sellers, who were unable to agree on prices. Low Middling was quoted at 64c., and Middling at 68c. ℔ lb. Molasses—Choice old was selling at 68c., and common new crop was held at 70c. Sugar was at 12¼c.@13¼c. for common to good, 13⅜c.@14¼c. for fair, and 14⅞c.@15¼c. for prime to choice.

THE WAR IN ARKANSAS.

Gen. Steele Driving the Rebels Southwest—Operations of Guerrillas.

The *Democrat's* Fort Smith (Ark.) special, dated 6th, says:

"Gen. STEELE's army has driven the rebels from Arkadelphia, and is now advancing on PRICE in the direction of Camden and Washington.

Several hundred rebels, under CABELL and other commanders, have come in behind our advancing forces, on raiding expeditions.

Clarksville, 55 miles from here, was attacked the day before yesterday. The enemy was repulsed with a loss of three killed, ten prisoners, twenty horses and all their camp equipage.

A force of 400 Texans, under Gen. GANO, attacked Roseville, 45 miles south of here, and burned 200 bales of Government cotton. Our troops afterward drove the rebels from the town, killing and capturing several of them. The remainder of the cotton at that place is being brought here, which will relieve the cavalry heretofore guarding it, and enable them to drive the guerrillas from the country.

DEPARTMENT OF THE SOUTH.

Arrival of the Arago—Affairs at Port Royal—Severe Storm and Disasters—Shelling of Charleston at Long Intervals.

The United States steam-transport *Arago*, HENRY A. GADSDEN commanding, from Port Royal, S. C., at 12 o'clock, M., and Charleston Bar at 5 P. M., Sunday, April 3, consigned to Major STEWART VAN VLIET, Quartermaster, U. S. A., arrived here at 10¼ P. M.

The *Arago* brings the usual mails and 61 first and 736 second-class passengers, among whom were the Ninety-seventh Pennsylvania Volunteers (Veterans,) 337 strong, under command of Col. HENRY R. GUSS, and detachments of various other regiments.

Among the cabin passengers are three British officers, viz.: Lieut.-Col. GALWAY, Royal Engineers; Capt. ALDERSON, Royal Artillery; and Capt. GOODENOUGH, Royal Navy.

During the passage the *Arago* encountered very heavy north and northeast gales, with tremendous seas running.

OUR HILTON HEAD CORRESPONDENCE.

A Skirmish at Pilatka—Affairs at Jacksonville—Arrival of Gen. Seymour at Hilton Head—The Shelling of Charleston.

HILTON HEAD, S. C., Saturday, April 2, 1864.

The news from Florida is unimportant. On Monday, the 21st ult., a

SMALL SKIRMISH

occurred at Pilatka between our pickets and a portion of DICKINSON's rebel cavalry, which resulted in the enemy taking to his heels in a very brief time. The gunboat *Ottawa*, Lieut.-Commander BREESE, fired a few shots over the town among the rebels, but with what effect it is not known. The rebel force is estimated to have been about two hundred. No casualties occurred on our side.

The prize steamers *Sumter* and *Hattie Brock*, captured by the *Columbia* up the St. John's River above Pilatka some days ago, have been sent to Jacksonville. They will be used in the transport service.

JACKSONVILLE AFFAIRS.

On the 31st ult. a flag-of-truce was sent to the enemy, with a view of ascertaining the condition of our wounded in his hands. The enemy consented that Chaplain CHAPMAN, of the Sixty-ninth New-York, should go to Tallahassee and judge for himself. We have reports that our wounded in the enemy's keeping are not receiving the best of treatment. The colored soldiers, especially, are made to suffer terribly. Amputations are performed in the most cruel manner, so that in nearly every instance the patient dies. If the inhuman wretches called rebels persist in this monster practice, our troops in the field will certainly demand a measure of retaliation.

Medical Director S. W. GROSS, and his executive, Surgeon TERMAINE, inspected the hospitals at Pilatka last week.

Surgeon A. MAGEE, formerly in charge of the hospital at St. Augustine, and more recently Medical Director of the Florida District, has been ordered to report to Hilton Head for duty elsewhere.

On the 28th ult. the Light Brigade was reviewed by Col. GUY V. HENRY. The review took place between Three Mile Run and Six Mile Run, and passed off in a very creditable manner. During Col. HENRY's absence at Hilton Head, on court-martial duties, the brigade was commanded by Maj. A. H. STEVENS, Jr., of the Independent Battalion Massachusetts Cavalry.

It is believed that the enemy has withdrawn a portion of his forces from the front, and sent them to some other field. His picket line is not so strong as it was a week or ten days ago. We will soon know for a certainty where the rebels are.

EVENTS AT HILTON HEAD.

Yesterday morning Gen. SEYMOUR and Staff arrived from Jacksonville. Gen. HATCH is in command of the Florida District, but, it is said, for a short time only. Gen. SEYMOUR will remain at Hilton Head for the present. As yet he has received no orders requiring him to repair to Washington. The following are the official orders relative to the change.

HEADQUARTERS DEPARTMENT OF THE SOUTH,
HILTON HEAD, S. C., March 24, 1864.

4. First Lieut. E. N. K. TALCOTT, First New-York Volunteer Engineers, is announced as Aid-de-Camp to the Commanding General.

J. P. HATCH, Brigadier-General Commanding.

HEADQUARTERS DISTRICT OF FLORIDA,
DEPARTMENT OF THE SOUTH,
JACKSONVILLE, Fla., March 28, 1864.

GENERAL ORDERS, No. 17.—Agreeable to instructions from Department Headquarters, Brig.-Gen. SEYMOUR hereby relinquishes command of this district. In bidding farewell to the brave and devoted officers and soldiers of this command, (many of whom he has often led in battle,) he desires to thank them in the warmest manner for cordial and affectionate support and friendship, and to assure them that their success and welfare will always be to him a subject of deep interest. To the members of his staff he desires to convey, in addition, his high appreciation of their laborious and always faithfully performed duties. And he congratulates the troops that he is relieved by an officer whose worth and excellent renown insure to them every prosperity and success they could desire.

By order of Brig.-Gen. T. SEYMOUR.
R. M. HALL, A. A. A. G.

The following are Gen. HATCH's staff officers:

Capt. P. R. Chadwick, Assistant Adjutant-General; First Lieut. R. M. Hall, First United States Artillery, Acting Assistant Adjutant-General; Major E. Eddy, Jr., Forty-seventh New-York Volunteers, Acting Assistant Inspector-General; Capt. G. S. Dana, Signal Corps, United States Army, Signal Officer; Capt. A. T. Dunton, A. Q. M., Chief Quartermaster; Capt. T. A. P. Champlin, C. S., Chief Commissary; Surgeon S. W. Gross, United States Volunteers, Medical Director; First Lieut. P. S. Michie, United States Engineers, Chief Engineer; First Lieut. W. Burns, Jr., First New-York Volunteer Engineers, Ordnance Officer; Capt. L. Le Langdon, First United States Artillery, Chief of Artillery; Lieut.-Col. T. A. Henderson, Seventh New-Hampshire Volunteers, Provost-Marshal; Capt. Wm. H. Dennis, United States Coast Survey, Topographical Engineer; First Lieut. E. N. K. Talcott, First New-York Volunteer Engineers, Aid-de-Camp; Second Lieut. R. H. Waters, Fifty-second Pennsylvania Volunteers, Mustering Officer.

Gen. BOYNES is still at Hilton Head.

The Court-Martial on Gen. GORDON's case are now acting on the charges preferred by Quartermaster BINGHAM.

On Sunday last Gen. GILLMORE left for Jacksonville and Pilatka. He visited both those places; also, Fernandina, and returned here Thursday morning.

Last Sunday Maj. T. B. BROOKS, of Gen. GILLMORE's Staff, and Mr. LANE, of the Treasury Department, took five men and a small row-boat, and proceeded up Broad River a certain distance, then struck off into one of the small creeks that are in the vicinity of the picket lines. They passed through the enemy's lines and took a general view of things in that portion of the country, and then started to return to Hilton Head, and while on the passage down the creek discovered, on the right of a wide marsh, a party of a dozen rebels in a boat, rowing with all their might to reach a bend a mile in advance, which bend Maj. BROOKS was also obliged to make in order to enter Broad River. But Maj. BROOKS, having good oarsmen with him, reached the bend first, and thus made his escape.

Lieut.-Col. C. R. BRAYTON has been promoted to a Colonelcy, and is to be Chief of Artillery in this department, during the absence of Gen. TURNER.

The steamer *Daniel Webster*, having on board seven companies of the Fourteenth New-Hampshire Regiment, and which left New-York for New-Orleans on the 20th ult., arrived here on the 27th, short of coal and in a disabled condition. When off Hatteras she encountered a terrific gale, during which her steam-pipe was broken, and other serious damage was done to her machinery, so that it was with great difficulty that the least headway could be made. For several hours the engineers were compelled to work the levers with their hands. Her upper works are very much damaged, and one of the paddle-boxes is completely shattered. The troops were ordered to come on shore, where they remained until transportation was furnished them for New-Orleans.

The gale was very severe all along the coast, and from the pieces of wreck that have been seen it is thought we shall soon hear of some fearful disasters.

Affairs at Folly and Morris Islands remain unchanged.

A few shells are occasionally sent into Charleston. Also, at long intervals, Fort Sumter receives the attention of both the land and naval batteries. The famous 30-pounder Parrott at Cumming's Point, which has been so actively engaged in shelling Charleston, exploded after having fired 4,615 rounds. The pieces of the gun have been collected for transmission to the North.

Capt. BURGER, Asst. Adjt.-Gen. to Gen. GILLMORE, arrived in the *Arago* yesterday.

Lieut.-Col. GALWAY, Capt. GOODENOUGH, and Capt. ALDERSON, of the British service, are visiting this Department, with a view, I suppose, of obtaining all the information possible as regards our defences, ordnance and projectiles, as the time may come when such information would be indispensable to the British Government. They receive unbounded facilities for accomplishing their object, and doubtless chuckle to themselves whenever an improvement is shown them. We may have an opportunity one of these days of seeing how awfully we have cut our fingers. If a correspondent should give to the public at the North the information, these British officers take with them to England, he would be ordered from the field at short notice.

The Boston Dramatic Association give their concluding performance at the Union Theatre this evening. For the past two weeks they have played before excellent houses, and the reason assigned for the order breaking them up is purely military. The actors will join their regiment at Pilatka.

The model of Fort Wagner, designed and executed by the Topographical Engineers, has been sent North. A superb photograph of it has been secured by Messrs. HAAS & PEALE, who are also disposing of their views of the siege operations on Morris Island.

NEWS FROM WASHINGTON.

SPECIAL DISPATCHES TO THE N. Y. TIMES.

WASHINGTON, Thursday, April 7.

IMPORTANT IF TRUE.

A party of refugees, just arrived, bring late intelligence from Richmond. They report daily augmentations to LEE's army by large numbers of conscripts from various portions of the Confederacy. rebels are increasing their armies very quietly, but effectively and rapidly; and they expect to start LEE out on the Spring campaign, with not less than eighty or ninety thousand men, without weakening other armies in the field. The conscription is merciless in the extreme. Its effects on the people are studiously concealed, newspapers being prohibited from any expression in regard to it. The conscript troops arriving at Richmond are mostly armed and organized, and are sent forward to the Rapidan without delay. Reports received here some time ago that the Richmond and Fredericksburgh Railroad had been taken up by rebels are pronounced untrue. It is the general understanding among the citizens of Richmond that the rebel leaders have concluded on a defensive line of operations this Spring. Misery and want everywhere in Dixie continue to prevail, and the great problem of the food question is to eke out present supplies until vegetables can be raised.

PROGRESS OF ANTI-SLAVERY.

The speech of Senator HENDERSON, of Missouri, to-day, in favor of the constitutional amendment prohibiting Slavery, took every one by surprise. The progress of public sentiment in Maryland on this subject seemed to anticipate Senator JOHNSON's declaration of Anti-Slavery ideas; but no such advancement was looked for from Missouri. The open and firm stand taken by Mr. H. produced a profound impression, and furnishes an additional illustration of the rapid growth of Free-State sentiment in Border States.

THE REPUBLICAN CAUCUS.

The last caucus of Republican Senators and Representatives, not having met the expectation of its representatives, another call has been issued for a similar assemblage on next Saturday evening, in the Hall of the House.

A GENERAL WEEDING OUT.

The War Department is about to weed out the unemployed Generals, with a view to reducing the number by thirty or forty, and thereby making room for the promotion of really meritorious officers.

RELIEF OF CONTRACTORS.

Contractors for construction of engines for the navy had a hearing before the Senate Naval Committee this morning. They allege in their statements that they have lost heavily, owing to the increased price of material and labor since their contracts were made. Contractors for wood-work are also here asking to be remunerated. They have also under consideration the question of selecting sites for a naval depot at West New-London and League Island. A majority of the committee favor Cairo as the western point. As between New-London and League Island the committee will be unable to agree.

UNITED STATES CONSUL AT HAVANA.

The Senate Committee on Commerce have agreed, at last, to report for confirmation the name of HORATIO BALLARD as a United States Consul at Havana.

THE INTERNAL REVENUE BILL.

The Ways and Means Committee this morning decided not to report the Internal Revenue Bill until next Monday. The object of this postponement is to give them time to arrange some additional amendments, suggested by the Secretary of the Treasury.

THE RARITAN AND DELAWARE BAY RAILROAD.

In the House, to-day, Mr. WOODBRIDGE, of Vermont, delivered a speech in favor of the Raritan Bay Railroad project, but the opponents of this line say he failed to convince the House that it was the best air-line route to Washington that could be adopted. The friends of the Camden and Amboy line maintain that their road is the most direct route, and are confident of defeating the bill by a majority of from fifteen to twenty.

VETERINARY CARE OF HORSES.

A Board of Officers, consisting of Capt. WM. B. ROYALL, Fifth New-York State Cavalry; Capt. C. H. TOMPKINS, Assistant Quartermaster, United States Army; and Assistant Surgeon J. COOPER MCKEE, United States Army, has been ordered to convene in this City on the 7th inst., or as soon thereafter as practicable, to examine into the true wants of the service with regard to horse medicines, and to compile and establish a table of such medicines, embracing only such as are necessary, on which all issues shall hereafter be made.

PERSONAL.

GEORGE THOMPSON, English orator, dined with Secretary SEWARD to-day.

DISPATCHES TO THE ASSOCIATED PRESS.

WASHINGTON, Thursday, April 7.

MAJ.-GEN. SCHOFIELD.

It is understood the Senate Military Committee to-day reported, in secret session, adversely on the nomination of Maj.-Gen. SCHOFIELD.

THE ASIATIC TELEGRAPH.

PERRY MCD. COLLINS, Consul at Amoor, has arrived here on business connected with the overland telegraph to Russia by way of Behring Straits, to connect the United States with the European capitals, having obtained the necessary concessions for that purpose.

FROM THE ARMY OF THE POTOMAC.

A letter from the Army of the Potomac says: "No events of general importance have recently occurred. Capt. JOHNSON, of the Ninety-third New-York, has been promoted to be Lieutenant-Colonel of the One Hundred and Fifteenth New-York, and Lieut. BRANNAN, of the same regiment, Captain.

The Provost-Marshal's Department has been reorganized with a view to greater efficiency, and new rules established for the organization and equipment of pioneer parties of the army. Regulations for the Inspector-General's Department have also been officially promulgated.

THE RELIEF OF CONTRACTORS.

Senator HALE, Chairman of the Naval Committee, has now under consideration the numerous applications for the relief of the engine and shipbuilders who have contracted with the Navy Department. Congress alone can aid them, by direct appropriation.

THE TRANSFER OF SEAMEN.

Five thousand applications have already been made by seamen to be transferred from the army to the navy. Applications should continue to be made to the Navy Department.

A BANK BILL IN THE SENATE.

It is stated by Senators that a National Bank or Currency Bill will be passed by the Senate and sent to the House for its concurrence.

THE TEN-FORTY LOAN.

The statement contained in a special dispatch to the New-York *World*, of the 7th inst., that the interest on the ten-forty loan will probably be raised to six per cent., is incorrect. There is no reason to doubt that bonds bearing five per cent., principal and interest payable in gold, will command all the money the Treasury will need to borrow. Instructions to the National Banks acting as loan agents were issued March 26, and the subscriptions reported to the United States Treasurer up to April 6 amounted to $6,607,871. No doubt is entertained that the subscriptions will rapidly increase as soon as the various agencies are organized and in operation throughout the country.

CONFIRMATIONS.

The Senate to-day, in Executive session, confirmed the following nominations of Brigadier-Generals: Col. C. G. Harker, 65th Ohio, from Sept. 20, 1863; Col. John F. Miller, 29th Indiana, Jan. 5, 1864; Henry H. Sibley, of Minnesota, from March 20, 1863; Col. Regis de Trobriand, 55th New-York, from January 5, 1864; Col. Gustav Kammerling, 9th Ohio, from Jan. 5, 1864; Col. Cyrus Bussey, 3d Iowa Cavalry, from January 5, 1864; Col. C. C. Andrews, 3d Minnesota, Jan. 5, 1864; Col. John W. Fuller, 27th Ohio, Jan. 25, 1864.

The Senate also confirmed the following:

As Commissaries of Subsistence—Joseph F. Denniston, of New-York; W. D. Chamberlain, of Massachusetts.

The following were also confirmed:

Nicholas L. Humphrey, of Maine, Consul at the Island of Trinidad; William Irving, of Pennsylvania, Consul at Amoy; John A. Lewis, of Massachusetts, Consul at Ascension.

Richard H. Lee has been confirmed as Postmaster at Camden, N. J., and John S. Pinckham, Postmaster at Placerville, California; Stephen S. Harding to be Chief Justice of the Territory of Colorado; John F. Hogeboom of New-York, to be Appraiser of merchandise, under the Act of March 3, 1851; Charles H. Parsons to be Cashier of Internal Duties, under the Act of March 3, 1863; Samuel J. Davis, of Iowa, to be Register of the Land Office at Sioux City, Iowa.

VOTE ON THE MEXICAN QUESTION.

Various gentlemen who were absent from the House of Representatives on Monday, when the question was taken on the adoption of the joint resolution protesting against the erection of a monarchical government on the ruins of any republican government in America, under the auspices of any European Power, have had permission to record their votes. The full list of members who have recorded their names in favor of the resolution, is as follows:

Messrs. James C. Allen, William J. Allen, Alley, Allison, Ames, Ancona, Anderson, Arnold, Ashley, Bailey, Baldwin of Michigan, Baldwin of Massachusetts, Baxter, Beaman, Blaine, Blair of Missouri, Bliss, Blow, Boutwell, Boyd, Brooks, Broomall, Brown of Wisconsin, Brown of Western Virginia, Chanler, Ambrose W. Washburne of Illinois, Washburne of Massachusetts, Whaley, Wheeler, Clinton A. White, James W. White, Williams, Wilder, Wilson, Windom, Winfield, Benjamin Wood, Woodbridge and Yeaman. Total, 131.

The House resolution excites much interest, and many gentlemen are resorting to the published diplomatic correspondence to refresh their memories as to the position of the United States Government upon the subject of French intervention in the affairs of Mexico.

The volume furnishes the following views:

Minister DAYTON, in a letter to Secretary SEWARD, dated Sept. 14, 1863, says in the course of a conversation with M. DROUYN DE LHUYS, "reference was made to the almost universal report that our Government only awaits the determination of its domestic troubles to drive the French out of Mexico. This idea is carefully nursed and circulated by the friends of secession here, and doing no injury with the Government. The French naturally conclude that if they are to have trouble with us, it would be safest to have their own time. M. DROUYN DE LHUYS referred to these matters, and said the Emperor had recently asked him if it was true, as the public journals alleged, that the United States had made a formal protest against the action of France in Mexico, and he had been told that no protest had been made. I told him that so far as I was concerned I had received no orders to make such formal protest; that, relying on the constant assurances of France as to its purposes in Mexico, and its determination to leave the people free as to their form of government, and not to hold or colonize any portion of the territory, my Government had indicated to me no purpose to interfere in the quarrel; at the same time we had not at all concealed, as he well knew, our earnest solicitude for the well-being of that country, and our sensitiveness as to any forcible interference in its form of government. He said that these were the same views held by you to M. MERCIER, and reported by him to his Government."

The above letter was written about two months after J. M. ARROYO, Under Secretary of State and of Foreign Affairs of the Mexican Empire, addressed to Mr. SEWARD a communication, dated at the "Palace of the Regency of the Empire of Mexico," to the end that he "may be pleased to place within the knowledge of his Government the recent important events which have finally resulted in the organization of an appropriate, strong and durable Government, with a view that the nation may be constituted," &c., &c. Consequently, Señor ARROYO "relies on the moral coöperation of the Governments which are friendly to Mexico, among which he has the satisfaction of enumerating that of the United States of America, which has given so many proofs of its interest in the happiness of Mexico."

In addressing Mr. DAYTON more than two months from the date of the last-mentioned communication, Secretary SEWARD says, under date of Sept. 26, 1863: "The United States hold, in regard to Mexico, the same principles that they hold in regard to all other nations. They have neither a right nor the disposition to intervene by force in the internal affairs of Mexico, whether to establish and maintain a Republic, or even a domestic Government there, or to overthrow an imperial or foreign one, if Mexico chooses to establish or accept it. The United States have neither the right nor the disposition to intervene by force on either side in the lamentable war now going on between France and Mexico. On the contrary, they practice in regard to Mexico, in every phase of that war, the non-intervention which they require all foreign Powers to observe in regard to the United States. But notwithstanding this self-restraint, this Government knows full well that the inherent normal opinion of Mexico favors a Government there republican in form, and democratic in its organization, in preference to any monarchical institutions to be imposed from abroad. This Government knows also that this normal opinion of the people of Mexico resulted largely from the influence of popular opinion in this country, and is continually invigorated by it. The President believes, moreover, that this popular opinion in the United States is just in itself and eminently essential to the progress of civilization on the American continent, which civilization he believes, can and will, if left free from European resistance, work harmoniously together with the advancing refinement on other continents. This Government believes that foreign resistance, or attempt to control American civilization, must and will fail before the ceaseless and ever-increasing activity of the material, moral and political forces which peculiarly belong to the American continent. Nor do the United States deny that, in their opinion, their own safety, and the cheerful destiny to which they aspire, are intimately dependent upon the continuance of republican institutions throughout America. They have submitted these opinions to the Emperor of France, on proper occasions, as worthy of his serious consideration, in determining how he would conduct and close what might prove a successful war in Mexico. Nor is it necessary to practice reserve upon the point that if France should, upon due consideration, determine to adopt a policy in Mexico adverse to the American opinions and sentiments which I have described, that policy would probably scatter seeds which would be fruitful of jealousies which might ultimately ripen into collision between France and the United States and other American Republics."

Minister DAYTON, in a communication to Secretary SEWARD, dated October last, speaking of a conversation with M. DROUYN DE LHUYS, says the latter remarked to him that "the early acknowledgement of that Government by the United States would tend to shorten, or perhaps, he said, to end, all the troublesome complications of France in that country; that they would thereupon quit Mexico." "I told him," Mr. DAYTON continues, "that without any authority from my Government to say so, I should scarcely suppose that France, under the circumstances, would expect the United States to make haste to acknowledge a new monarchy in Mexico; but that I would report his views to the Government at home, not suggesting, however, that any answer would be given. In the course of conversation he took occasion to repeat voluntarily a disclaimer of any intention to interfere with TEXAS, or to make or seek any permanent interest or control in Mexico. He said that our 'situation as a next neighbor entitled us to an influence there paramount to that of distant European countries, and that France, at her great distance from the scene, would not be guilty of the folly of desiring or attempting to interfere with us.'"

The dispatch of Secretary SEWARD to Mr. DAYTON, dated Oct. 23, 1863, contains the following sentences:

"The United States, when invited by France or Mexico, cannot omit to express themselves with perfect frankness upon new incidents as they occur in the progress of that war. M. DROUYN DE LHUYS now speaks of an election which he expects to be held in Mexico, and to result in the choice of His Imperial Highness, the Prince MAXIMILIAN, of Austria, to be Emperor of Mexico. We learn from other sources that the Prince has declared his willingness to accept an imperial throne in Mexico on three conditions, namely: *First*, that he shall be called to it by the universal suffrage of the Mexican people. Secondly, that he shall receive the indispensable guarantees for the integrity and independence of the proposed empire. Thirdly, that the head of his family, the Emperor of Austria, shall acquiesce. Referring to that fact, M. DROUYN DE LHUYS intimates that an early acknowledgment of the proposed empire by the United States would be convenient to France, by relieving her, sooner than might be possible under other circumstances, from her troublesome complications in Mexico. Happily, the French Government has not been left uninformed, that in the opinion of the United States the permanent establishment of a foreign monarchical government in Mexico will be found neither easy nor desirable. You will inform M. DROUYN DE LHUYS that this opinion remains unchanged. On the other hand the United States cannot anticipate the action of the people of Mexico, nor have they the least purpose or desire to interfere with these proceedings, or control or interfere with their free choice, or disturb them in the enjoyment of whatever institutions of government they may, in the exercise of an absolute freedom, establish. It is proper also, that M. DROUYN DE LHUYS should be informed that the United States continue to regard Mexico as the theatre of a war which has not yet ended in the subversion of the Government long existing there, with which the United States also remain in the relation of peace and sincere friendship, and that for this reason the United States are not now at liberty to consider the question of recognizing a Government which, in the further chances of war, may come into its place. The United States, consistently with their principles, can do no otherwise than leave the destinies of Mexico in the keeping of her own people, and recognize their sovereignty and independence in whatever form they themselves shall choose that this sovereignty and independence shall be manifested."

PROCEEDINGS OF CONGRESS.

SENATE.

WASHINGTON, Thursday, April 7.

NAVAL AFFAIRS.

Mr. HALE, of New-Hampshire, (Union,) from the Naval Committee, reported back the resolution introduced by Mr. GRIMES yesterday, to repeal the joint resolution for the transfer of seamen from the military to the naval service, accompanied by a report, which was ordered to be printed.

Mr. HALE also reported on the bill to amend the act relative to certain officers of the navy, and on the bill in relation to supplies, and adversely on the bill relative to Paymasters' clerks, with amendments.

Mr. HALE also reported in favor of passing the bill to amend the act to regulate the grade of line officers of the navy; in favor of the resolution of thanks to Admiral PORTER, and the resolution to compensate the crew of the gunboat *Baron De Kalb* for losses.

Mr. HALE reported adversely on the position of the warrant officers.

THE WASHINGTON AQUEDUCT.

Mr. MORRILL, of Maine, (Union,) offered a resolution for printing 1,000 copies of the report of the engineers of the Washington Aqueduct, for the use of the Interior Department.

Referred to the Committee on Printing.

THE FEES OF DISTRICT OFFICERS.

On motion of Mr. TRUMBULL the following was adopted:

Resolved, That the Secretary of the Interior be directed to inform the Senate what amount of fees and emoluments, of every kind and character, were received by the Attorney and Marshal of the United States for the District of Columbia respectively, and by the clerks of the several courts for said District, during the year ending Dec. 31, 1863, and what amount was allowed to each of said officers for deputies, clerks, office rents and other incidental expenses during the same period.

THE PARDON OF DR. YOCUM.

Mr. DAVIS, of Kentucky, (Dem.,) called up his resolution instructing the Judiciary Committee to inquire and report whether or not Mr. YOCUM, late of Cairo, is now confined in the Albany Penitentiary under sentence of court-martial, though having received a full pardon from the President.

Mr. GRIMES suggested an amendment, "and that the committee report to the Senate the charges, &c., on which YOCUM was tried."

Mr. DAVIS accepted the amendment, and explained the facts of the case, saying that YOCUM had had charge of the contrabands at Cairo, and a loyal slaveholder of Kentucky having come there and taken steps in compliance with the Fugitive Slave Act, carried off his runaway slave, for which YOCUM was tried, committed to the Old Capitol here, but subsequently fully pardoned by the President, the day after which he was sent to the Albany Penitentiary.

After further discussion the subject went over informally.

INDIAN AFFAIRS.

On motion of Mr. DOOLITTLE, of Wisconsin, (Union) all prior orders were postponed, and the bill to aid Indian refugees return to their homes was taken up. The bill appropriates about $200,000 for the benefit of the Indians who fled into the frontier States a year ago from the Indian Territory on account of the rebellious position taken by some of the tribes.

Mr. DOOLITTLE said it was necessary that the Indians should get home at once to be in time to make crops this season.

The bill was passed.

THE CONSTITUTIONAL AMENDMENT.

The Senate proceeded to the consideration of the joint resolution amending the Constitution.

Mr. HENDRICKS, of Indiana, (Dem.,) said he would not have been induced to say a word but for the charge made by Mr. HALE, yesterday, that Mr. BUCHANAN's administration was responsible for this war. He claimed that the Democratic party of that time did all it could to prevent hostilities; and if the Republicans had done as much as the Democrats the conflict might have been avoided. Every Democrat voted for the compromise measures, and every Republican against them. The Senator from New-Hampshire could not deny that if a sectional President had not been elected these troubles would not have occurred. He did not consider it a delusion to indulge in the hope that the Democratic party would yet save the country. If so, the Senator himself had once indulged the same delusion, as he had been a member of the party. The Senator had said that this was a day he had long wished for, and at whose coming he rejoiced. What did the Senator see to rejoice at in the prospect around him? Was it the fact that we had already had nearly 2,000,000 of people in the army, and that one-tenth of the people of the North had been called from their peaceful pursuits? Was it in the fact that instead of adding to the wealth of the country we were destroying it? Was it in the fact that 250,000 of our sons occupied graves, and that their homes are in sorrow instead of rejoicing? or that we could on every side see the maimed and wounded? Was it in the fact that we had amassed a debt of over $4,000,000,000; the State, city and town debts would amount to $6,000,000,000 more? He supposed the Senator was gratified when he contemplated the effect upon 4,000,000 of negroes. Did he suppose those measures would benefit those who before had good masters to take care of them? When this labor came in contact with the free labor of the North, the calamities which would ensue would be frightful. He denied that the history of the last year afforded any ground for exultation and joy. If these free persons of color were to remain among us, it could never be on terms of equality, but as inferiors. As the Senator from Delaware well said, it is the work of God that this inferiority exists. He found nothing in the past history of the negroes to justify the belief that they could be elevated by contact with white men. He did not consider this the time to change our organic law. Three-fourths of the people must agree to this by their Legislatures. He asked the Senators in what condition were the people of Kentucky, subject to invasion daily; Maryland, in which there were no free elections, and Delaware, in which the elections were controlled by Provost-Marshals, to pass calmly on these amendments, to say nothing of the States actually in rebellion. Was not this to be a Constitution for Virginia as well as New-Hampshire, Florida and Indiana? Without inquiring by whose fault these States were in rebellion, were Senators to allow that a State should take advantage of its own fault? Fault or no fault, three-fourths of the States must agree to this amendment before it could become binding.

Mr. HOWARD, of Michigan, (Union,) said an opportunity was offered all the States to vote on the subject, but their open treason prevented them from doing so.

Mr. COLLAMER, of Vermont, (Union,) said that though the rebellious States which refused to vote would be enumerated in the count, their refusal to vote would not operate if a three-fourths vote was secured in favor of the measure.

Mr. HENDRICKS would have no objection to this measure if it was adopted by each State, for he believed Slavery to be the creature of local law. It was a grave question whether three-fourths of the States could lay hands on an institution of the other fourth without their consent, all being parties in the original contract. He was taught to stand by the original agreement, and he did not intend here to discuss the moral question, with which we had nothing to do. The fault with the Administration was that it had acted throughout this struggle upon the policy that the rebellious States should not come back into the Union upon the principles of our forefathers; that no terms of peace could be considered, and that subjugation was the only course. Why was not the policy of the resolution, adopted three years ago, followed, and the war waged for the sole purpose of restoring the Constitution and the Union?

Mr. HENDERSON, of Missouri, (Union,) said that as the author of the bill originally introduced on the subject, which provided not only for the extinguishment of Slavery, but for a different mode hereafter of securing amendments to the Constitution, he would have preferred its adoption in that form. But as a majority of the Judiciary Committee had thought differently, he was prepared to yield to their judgment. The loyal owners of slaves in the Slave States had made up their minds as to the course to pursue on this subject, without regard to what may have been their opinions heretofore. He proceeded to argue that Slavery had been protected and not warred on to the extent charged in the past by the Northern people, and mentioned that an amendment had once been proposed to the Constitution prohibiting any interference with Slavery, but it was not supported by Southern men. At the time of the election, in 1860, the prejudice against Slavery had not gone so far as to say a slaveholding could not be a Republican State, though the platform of the Republican party was to exclude Slavery from the Territories. It did not say a State should not adopt Slavery afterward if the people thought proper, and it was not so much the Anti-Slavery prejudice as it was the corruptions of the Buchanan administration, which secured the Republican triumph. Our fathers had found Slavery a difficult question in their day, as we do now, and therefore they left it to the States. But things have materially changed now. By the invention of the cotton gin, slave labor had brought large profits to the idle few who, in their exemption from labor, began to indulge a feeling of superiority, and ransacked the Scriptures to prove the divine origin of Slavery, and finding it recognized within the Jewish theocracy, and not prohibited by Christ, placed themselves upon that ground. As the profit of the culture of cotton increased, the conviction of the morality of Slavery increased. While the slaves produced cotton, the masters discussed politics, making the whole South a debating society. And in the meantime, the Northern States were engaged in manufactures, science and schools. At the South men talked of liberty and democracy, while the masses of their laborers were in bondage; and finally, after asserting the doctrine of squatter sovereignty, flew from it when it failed to bring in a Slave State. Meanwhile the North began to feel the immorality of Slavery, and to propagate the sentiment by its churches and by other agencies. At this point the divergence between the North and South commenced, and our political platforms became nothing but a budget of dogmas on the subject of Slavery. He held that in the position we had now come to the Anti-Slavery sentiment could not be removed, and Slavery would give no guarantee finding that it could not exist in our Government. It was no use, therefore, for men to say they wanted the South to come back on the basis of the old Union, and quoted from the Richmond *Whig*, to show that the people of the South spurned the conservatism of the people of the North.

Mr. SAULSBURY, of Delaware, (Dem.,) submitted the following:

Resolved, That the Chaplain of the Senate be requested hereafter to pray and supplicate Almighty God in our behalf, and not to lecture him, informing him, under pretence of prayer, his, said Chaplain's, opinion, in reference to His duty as the Almighty; and that the said Chaplain be further requested, as aforesaid, not under the form of prayer, to lecture the Senate in relation to questions before the body.

Mr. HOWARD objected to the resolution.

The Senate went into Executive Session.

Adjourned.

HOUSE OF REPRESENTATIVES.

WASHINGTON, Thursday, April 7.

SUMMARY DISMISSALS BY THE PRESIDENT.

On motion of Mr. GARFIELD, of Ohio, (Union,) the Secretary of War was directed to inform the House how many commissioned officers, with their names and rank, have been dismissed from the military service by authority of the President, without trial by court-martial, since the beginning of the present war, and how many such dismissals have been revoked.

Mr. GARFIELD said this resolution was reported at the instance of the Military Committee. A bill had been passed by the House, but had been reported upon unfavorably in the Senate, taking away from the President the power of summary dismissals. As a communication on this subject had been received from Advocate-Gen. HOLT, it seemed only just that all the facts should be before the House.

The resolution was passed.

THE RARITAN AND DELAWARE BAY RAILROAD BILL.

The House then resumed the consideration of the Raritan and Delaware Bay Railroad Bill.

Mr. WOODBRIDGE, of Vermont, (Union,) argued in favor of the constitutionality and expediency of declaring the roads and boats of that company to be military and post routes. The public should be protected against that legalized monopoly, the Camden and Amboy Railroad Company, which not only imposed burdens on the people, but crippled the Government in the performance of its duties. This company, he said, interferes with the elections in that State, and designates who shall be elected.

Mr. ROGERS, of New-Jersey, (Dem.,) remarked that the statement was false from beginning to end.

Mr. WOODBRIDGE took the disclaimer as true, according to the best information of the gentleman; but he (WOODBRIDGE) had been informed that the Camden and Amboy Company puts its foot on such nominations as may not best serve the interests of the great monopoly.

The subject here went over.

DISTRICT OF COLUMBIA MATTERS.

The House then proceeded to the consideration of the special order, namely—Business relating to the District of Columbia.

Several local bills were passed, and one, appropriating $250,000 for the erection of a penitentiary jail and house of correction in the District of Columbia, was discussed.

Pending a motion to lay the bill on the table, the House at 4¾ P. M. adjourned.

From the Mississippi.

During the past sixty days the steamer *Holliday*, for Cairo, shipped 2,600 bales of cotton out of the Tennessee River for Evansville, thence going East, on which the Government tax amounted to $42,000.

The steamer *Carrie Jacobs*, bound down, loaded mostly with flour, collided last night with the steamer *General Anderson*, below Metropolis, the *Jacobs* breaking into her. No lives were lost.

The steamer *Forsyth*, after leaving this port, to-day, was brought back by a shot from the fort. Her officers are charged with having contraband goods on board. The boat is under a guard, the Captain under arrest, and the Clerk in the guard-house.

APRIL 1864

MASS MEETING OF WORKINGMEN.

Twenty Thousand People Assembled—The Workingmen Protest Against the Bill Now Pending in the Legislature, in Relation to Strikes.

A grand mass meeting of the mechanics and workingmen of this City was held yesterday afternoon at Tompkins-square, for the purpose of protesting against a bill now pending in the Legislature, for the suppression of strikes. More than fifty Associations and workingmen's Unions sent delegates to this meeting, and men in all parts of the City stopped work at noon and gathered in Tompkins-square, to assist at a meeting which they consider will tend to preserve their rights and liberties. At three o'clock in the afternoon, when the Chairman called the crowd to order, there could not have been less than ten thousand people present, which number was increased before the close, by fresh arrivals, to nearly twenty thousand.

Three stands were provided for the speakers, at one of which speeches were made altogether in the German language. At Stand No. 1, the main stand, the meeting was called to order by Mr. P. Keady, who nominated Mr. William Harding, of the Coachpainters Union, as Chairman.

Upon taking the chair, Mr. Harding said that they were assembled upon one of the most momentous of all questions. They were citizens of a free republic, yet a bill had been introduced in the Legislature more coercive than any ever introduced in the British Parliament to oppress Ireland—a bill which must not pass. Will you let them do it? (Vociferous cries of "No." "No.") It had been said that they wanted to combine for bad ends. It was not so. Labor and capital must work together. The workingmen wished to see the country prosper. This was a republic, and every workingman knew that this must ever be the home of his children. It was an insult to them that they should be called upon to protest against this bill. They were of all shades of politics, and did not recognize politics in this meeting. He then introduced Mr. [illegible], the Secretary of the meeting, who read the following resolutions, which contain the gist and object of the whole meeting:

RESOLUTIONS.

Whereas, It is self-evident that the present distracted condition of our country has brought upon our people the calamities incidental to such strife, in this derangement which is but the natural concomitant of such a state of things, we must assert that those who are obliged to earn a subsistence for their families cannot justly be pointed at as the creators of these causes which have produced the high and extravagant prices which are being exacted for all the necessaries of life, as the evil of expanding prices can be traced to the speculative classes, ever ready to thrive either over or under the fortunes of their country. Who is it, we emphatically demand, that these, the chief and first operators in advancing the articles of living, are thus passed in order to inflict injuries upon those who, for self-preservation, have been made to swell the amount of the cost of production, so that they would be thereby enabled to meet the additional claims made on their labor.

Whereas, A person in the capacity of a representative from a small portion of one of the Districts of this State, saw fit to introduce a bill with the intention and for the purpose of enacting, upon the mechanics and laboring men, an oppressive, unequal and unjust law; and as said bill was favorably received and referred to the Judiciary Committee, and through their action brought before the Senate for its consideration and indorsement, we, therefore, upon the part of the aggrieved, do now and hereby protest against the passage of such law, because we are sensible that the regulating the rate of wages or the hours of labor, does not come properly within the supervision or control of legislation. Concluding that if such power be exercised, the extent of such usurpation could be used to place a value upon the products of the agriculturist, or the wares of the merchant, with that of the limitation and direction of the amount which professional men are to demand for their services.

1. We protest against the enactment of the law, because while the legislators have buried, floating in the sweetness of the material in which they have dipped it, yet we nevertheless detect in the redolence of its surroundings, the fumes of a lethargic and dangerous poison.

2. We protest for the reason, that the limitation of such an edict is calculated, and meant to produce endless litigation. We object to it because its contrivance is so arranged, as to harass and involve the laboring men in expenses which he can but poorly afford.

3. We object to the passage of the law, because we deny that any portion of the people have delegated to the Representatives the right to meddle with the affairs of individuals for the purpose of trade.

4. We question the right of intervention for or against the valuation of the product or labor in our population, and we further contend that, our Government best subserves the purposes for which it was created, when it abstains from interfering for or against the interests of those whom, by its conditions, it recognizes as equals.

5. We protest against the adoption of said law, because that it is admitted to be copied from a code of English enactments. We object to it, as the aim of said enactment provides for the regulations of *servants* in the employ of their masters. We further demand that it shall not become one of our laws, for the simple but paramount reason, that it is not suited to the range of our republican atmosphere; we contend that, as in its construction it was intended to represent the operations of a Government which is founded upon the *privilege of classes*, let it remain with a people whose three functions of government—namely, the House of Commons, House of Lords and Royalty—act as three separate manifestations of one power, that of the aristocracy.

6. We protest against its passage, because it is admitted to be an exact copy or counterpart of a British law; as American citizens we object to be thus dragged to the degraded level of a people of whom a celebrated author says—"less than twenty land-holders hold fourteen millions of the English people in subjection, and these by their subserviency hold another one hundred and fifty millions of the people of this earth in the most abject slavery." Therefore,

Resolved, That this meeting indignantly protest, in the name of the workingmen generally, against this premeditated outrage on their rights, and peremptorily call on all the honorable members of both Houses to spurn it from them as an insult.

Resolved, That, should this bill be allowed to proceed further, the working classes throughout the State are earnestly requested, in addition to other means, to register the names of all members found voting for the same, for future action.

Resolved, That the foregoing resolutions be printed, and copies sent to all the honorable members of both Houses of the Legislature.

These resolutions having been adopted, other speakers followed, inveighing against this law as an attack upon the liberties of the people.

At the conclusion of the speeches, the audience were called upon to come forward and sign a protest to be sent to Albany.

TELEGRAPH ENTERPRISES.

The Collins Russian Overland Telegraph via Behring's Straits.

WASHINGTON, Thursday, April 7.

Mr. Collins has returned to Washington, after nearly two years' absence in Russia and England.

Negotiations for right of way and the construction of a telegraph across Asiatic Russia, Russian America and British Columbia, so as to connect Europe with America by way of Behring's Straits, having been brought to a satisfactory conclusion, under very favorable terms, now awaits the final action of Congress.

We understand that Mr. Collins will soon present the plan to Congress, in view of the cooperation of our Government.

It is due to Great Britain and Russia that the liberal grants and concessions in aid of a purely international work of this nature, an enterprise fraught with incalculable advantages to the United States and the world at large should command promptly generous aid from us.

It certainly devolves upon our Government to second this great enterprise, and more especially now since Russia and Great Britain have met the question in a liberal international spirit, and cleared it of all question as to right of way, so as to connect London and St. Petersburg with New-York.

There never was an enterprise presented to the consideration of Government that pleads more eloquently than this. It is the last link in a telegraphic chain that is to find out only Europe and America, but Asia and Africa as well, into one living and speaking unity.

The Atlantic Telegraph.

An extraordinary general meeting of the Atlantic Telegraph Company was to take place in London on the 23d of March, to consider the following business:

1. To receive the report of the directors on a contract for manufacturing and laying the cable in the Summer of 1865.

2. To authorize, under the powers of the company's act of Parliament, an increase of the company's unguaranteed capital, by the issue of new capital, to an amount not exceeding £150,000.

3. To authorize, or otherwise, as provided by the "Atlantic Telegraph Amendment Act, 1860," the issue from time to time, of bonds or mortgages for such amounts as to the Directors may seem expedient, not exceeding in the whole sum of £100,000.

The form of cable adopted by the committee of the company is thus described:

The conductor will consist of a copper strand of seven wires, (six laid round one,) each wire guaging .048, or No. 18 of the Birmingham wire gauge, and weighing 300 pounds per nautical mile, imbedded "for solidity in the composition known as Chatterton's Compound." The insulator is to consist of gutta percha, four layers of which are to be laid alternately with four thin layers of the above named compound, making the diameter of the core of .464 inches, and a circumference of 1.392 inches. The weight of the entire insulator to be 400 pounds per nautical mile. The external protection is to be in two parts; first, the core surrounded with a padding of soft jute yarn, saturated with a preservative mixture; next to this padding is to be the protective covering, to consist of ten solid wires of the gauge .095 drawn from homogeneous iron, the same as now used by Warwood in the manufacture of his celebrated guns; each wire surrounded separately with five strands of Manilla yarn, the whole of the ten strands thus formed of hemp and wire to be laid spirally around the padded core. The weight of the cable in air will be 35 cwt. 3 qrs. per nautical mile; the weight in water will be 14 cwt. per nautical mile; the breaking strain will be 7 tons 15 cwt., or equal to eleven times its weight per nautical mile in water; that is to say, if suspended perpendicularly from the stern of the vessel, it would bear its own weight in eleven miles depth of water.

AN EXCEEDINGLY CHOICE AND IMPORTANT COLLECTION OF ORIGINAL AND VALUABLE PAINTINGS, by the greatest artists of the French and German Schools, not one of which has ever been seen on this side of the Atlantic prior to the present exhibition, collected during several years' residence in Paris by an American gentleman of wealth and well-known taste and liberality. They have been consigned to Mr. SAMUEL P. AVERY, of this City, under whose direction and advice they have been collected and will be offered for sale. The name of this gentleman is a sufficient guaranty of the high quality and genuineness of the works presented.

The works of many artists will now be seen for the first time in America, and also others most difficult to obtain. In brief, we may mention fine examples of

EDWARD FRERE, KNAUS, MERLE, TROYON, ISABEY, WILLEMS, GUILLEMIN, DUVERGER, VERBOECKHOVEN, LANFANT DE METZ, LE POITTEVIN, KOEK KOEK, ANKER, BRILLOUIN, COMPTE CALIX, HUBNER, and others.

The Landscape department will possess unusual interest and merit—several of the artists being for the first time represented—including specimens by DAUBIGNY, COROT, VEYRASSAT, ANDRIEUX, RUSSEL, CHAIGNEAU.

A few choice WATER-COLOR DRAWINGS, by the popular artists, DAVID, MARCHON, LE BAS, MARELE.

All of these fine works of art have been selected especially with the view of getting representative works of the artists, and have been painted at the best period of their lives, a number dating back several years, and some being the exhibition works of the artists for 1863.

All are in excellent condition, having been submitted to the artists for revision previous to shipping. The frames are nearly all new and elegant, the choicest pictures being protected with cases and heavy plate glass.

They will be on exhibition from March 31, day and evening, until the evening of sale, (with catalogues,) and fine photographs of the principal pictures can be seen at the art emporiums and book stores on Broadway.

NEWS OF THE DAY.

THE REBELLION.

By way of Cairo and the Mississippi, we have news from New-Orleans to March 29, two days later than that previously received. The election in Louisiana, on the 28th, for delegates to the Constitutional Convention, resulted in the complete triumph of the Free-State party. The steamer *J. H. Russell*, with 700 bales of cotton and a quantity of cattle and hogs, was consumed by fire at night, at Plaquemine. The steamer was on her passage from Vicksburgh to New-Orleans, and took fire from the sparks of her smoke-stacks. The mails from Alexandria, together with the dispatches of Gen. LEE to the headquarters of the Department of the Gulf, were also burned. The rebel ram *Tennessee* was struck by a squall on the 1st inst., while lying near Grant's Pass, below Mobile. Her armament will prove a heavy loss to the rebels. It consisted of six 100-pounder Parrotts. At Alexandria, on the 27th, it was reported that all was quiet. The rebel force near there was reported to be twenty thousand strong. It was supposed that their intention was to fall back about fifty miles, and there await an attack from our forces. Our gunboats bound for Shreveport had succeeded in getting over the shoals. A land force left Alexandria on the 27th, destined for Shreveport. The force was under the command of Gen. SMITH.

By the arrival of the Arago at this port, last evening, we have news from Hilton Head to April 3. Everything was quiet in that department. Gen. SEYMOUR had arrived at Hilton Head, from Jacksonville, having been relieved by Gen. HATCH. The shelling of Charleston was continued at long intervals. A Parrott gun, which had been discharged nearly 5,000 times, finally burst at Cumming's Point.

A party of refugees, just arrived at Washington from Richmond, give glowing accounts of the rapidity with which LEE is reinforcing his army by conscription, which, though quiet, is merciless in the extreme. It is asserted that LEE will have an army of eighty or ninety thousand men to open the Spring campaign with.

There has arrived in Baltimore a refugee from Richmond, Mrs. LUCY A. RICE. Mrs. RICE, despite the tyranny that reigns at Richmond, has always preserved her loyalty to the Union, and evinced a warm sympathy for the sufferings of our officers and men who have been imprisoned in Richmond. Her house was for nine days the hiding-place and refuge of Col. STREIGHT, Major B. B. MCDONALD, and another officer, after they escaped from *Libby Prison*, and were awaiting an opportunity to get out of the city. Mrs. RICE has reached our lines in a destitute condition. She has been forced to abandon all she possessed in Richmond.

It is announced that since the passage of the resolution authorizing the transfer of seamen from the army to the navy, already over five thousand have been thus transferred.

CONGRESS.

In the Senate, yesterday, Mr. GRIMES reported favorably the resolution to repeal the joint resolution authorizing the transfer of seamen from the army to the navy. Mr. HALE, from the Naval Committee, reported adversely on the petition of the warrant officers of the navy for assimilated rank. On motion of Mr. DOOLITTLE, the bill to let Indian refugees return to their homes was taken up. The bill appropriates $200,000 for the benefit of the Indians who fled into the frontier States a year ago from the Indian Territory, on account of the rebellious position taken by some of the tribes. The bill was passed. The Anti-Slavery Constitutional Amendment was taken up, and discussed by Messrs. HENDRICKS, HENDERSON, HOWARD and COLLAMER, when the Senate adjourned.

In the House yesterday, on motion of Mr. GARFIELD, the Secretary of War was directed to inform the House how many commissioned officers, with their names and rank, have been dismissed from the military service by authority of the President, without trial by court-martial, since the beginning of the present war, and how many such dismissals have been revoked. The Raritan and Delaware Bay Railroad Bill was taken up and advocated by Mr. WOODBRIDGE, of Vermont. The rest of the session was spent upon matters pertaining to the District of Columbia.

LEGISLATURE.

In the Senate, yesterday, among the bills introduced, was one authorizing the New-York and Harlem Railroad Company to increase its capital stock three millions of dollars, for the purpose of completing its double track to Albany, and to authorize the holders of the mortgage bonds of said company to convert their bonds into stocks; and another, to increase the New-York riot, bounty, military and damage fund, created under the Act of Feb. 5, 1864, from $200,000 to $900,000. Bills were reported relative to docks in the Nineteenth Ward, Brooklyn; relative to the New-York Magdalene Benevolent Society. Bills were passed incorporating the Corn Exchange Warehouse and Security Company; the New-York Croton Water Works Reservoir Bill.

The session of the Assembly was mainly occupied in the consideration of the Public Charity Bill. The courtesies of the floor were extended to Maj.-Gen. SICKLES, who was earnestly welcomed by the Speaker, and who responded in a patriotic speech of some length.

GENERAL NEWS.

Yesterday was the fourth day of the Metropolitan Fair, and the first day that people were admitted for fifty cents. The building was crowded day and night to overflowing; the number of visitors was thirty thousand two hundred and forty-four. The price of admission to-day and until further notice will be $1.

A mass meeting of the workingmen of this City was held yesterday, to protest against the passage of a bill now pending in the State Legislature in relation to strikes. Nearly 20,000 people were present, including delegates from all the Associations and Unions. Resolutions strongly condemning the law were passed, and a protest numerously signed.

In the Court of Oyer and Terminer, yesterday, Judge BARNARD delivered a lengthy charge to the Grand Jury. His Honor instructed them that the practice of calling people "Secessionist" was libelous and indictable. He also mentioned the "Ring" as among the iniquities that they might take cognizance of.

An entertainment by the children of the Tenth Ward Schools was given yesterday, in the Children's Department of the Fair building on Union-square. The attendance was large, and the children, under direction of Mr. GEORGE F. BRISTOW, delighted the audiences with their songs and exercises.

The price of Gold to the importers for the payment of Duties was, yesterday, reduced to 165 ₽ cent. for all this week and next. There was no export demand for Gold. The speculators in the Gold room fell from 170¾@171 to 169½ ₽ cent. The Stock market steady at the close, after a general fair business through the day on the Railway list.

Business was quite active at the Produce Exchange yesterday; prices of Breadstuffs, Provisions, Whisky and Tallow were generally higher. Cotton, Hay, Hops, Wool and Groceries were in good request, at buoyant prices. The Freight Market exhibited more firmness.

The Presidential Nomination.

The *Independent* swells the chorus for a postponement of the Union National Convention. It fears the effect of too long a Presidential canvass. It is afraid *the North* will be divided by a contest lasting from the 7th of June until the 1st of November. But it is quite willing to have *the Union party* divided from June till September, by a sharp, bitter personal controversy about candidates. It sees, or acknowledges, no danger in this.

It is quite needless to say that this is only another part of the machine "pressure" by which the opponents of President LINCOLN hope to compass his defeat. As things are going now they regard his nomination as reasonably certain. The whole drift of public sentiment seems to be in favor of trusting him to finish the work which it was the fate of his administration to begin. His opponents think that in gaining time they gain chances of checking this tendency and turning this tide of opinion in some other direction. They will have more time to arrange for the election of Anti-Administration delegates. They will have the chances of possible defeats in the field, which may damage the Administration, as well as of possible victories, which may help some other candidates. In all this they may or may not reckon wisely. For our own part, we do not believe that President LINCOLN's nomination depends at all on the time of holding the convention. We have very little doubt that he will be the candidate *of the Union party, whether the nomination* is made on the 7th of June or on the 1st of September. If that, then, were the only question to be affected by the desired postponement—if the issue were simply one of candidates—we should take no special interest in its decision.

But this is a very small part of the issue involved. The mischiefs of a protracted canvass for the election are not to be compared with the mischiefs of a protracted contest for the nomination. The one will be between the supporters and the opponents of the war. It is a plain issue,—one on which the people can take sides, according to their views of the rebellion, and one which will bear discussion. Indeed, the more it is discussed, the stronger will the Union cause become. We have nothing to dread from such a canvass. But if the Union party is to spend three months in a rancorous wrangle over men,—if they are to stand fighting for candidates, in presence of *the common enemy,—expending on purely* personal preferences and resentments the efforts and energies that ought to be put forth against the rebels and their Northern allies,—who can measure the mischief that may be thus inflicted on the Union cause? It becomes then, as everybody knows, a contest between the friends of the Administration and its enemies in the Union ranks. It ought not to take that shape, perhaps, but everybody knows that it certainly will. The enemies of Mr. LINCOLN,—those who have become hostile to him from personal disappointments, those whose opinions as to the policy of the country he has not adopted, those who from whatever motive, selfish or patriotic, dislike the course he has pursued, will inevitably become his open assailants,—as the journals most clamorous for a postponement of the convention already are. Is it desirable to court such an intestine contest as this? Who is to derive advantage from such a division of the Union party? Who will profit by such a war upon the Administration—its measures and its men? The zealous interest felt in the postponement of the convention by every Copperhead newspaper in the country ought to furnish a sufficient answer.

The sooner this question of candidates is decided the better. It is the right of every man to have his own opinions and his own preferences as to men. But it is not right to insist on making *them* the subject of a prolonged contest among the friends of the Government, to the encouragement and aid of its opponents. Let us have a fair canvass,—full freedom of choice and of action,—an open and free election of delegates, so that every State may express, clearly and fully, its preference, and then let us have an *early decision*. Let us know who is to be our candidate as soon as possible, so that we may all unite in the effort to secure his election. This seems to us the best way, and, indeed, the only way, to prevent divisions in the Union party fatal to its vigorous and effective action.

Government Care of the Soldier—Hospitals and Supplies.

There is not only an impression, but a firm belief, widespread through the community, that the General Government neglects its wounded and sick soldiers, as well by inadequate general hospital accommodation as by insufficient medical and hospital supplies, and supplies of food and clothing. The latter has been shown, in a general way, to be erroneous. The first is equally so. Indeed, there is scarcely an individual in the length and breadth of the land, who, in making such a charge, would not be guilty of ingratitude; for there is scarcely any one who has not felt, directly or indirectly, the generous beneficence of the Government in all of these particulars.

The following list of the general hospitals, with the number of their beds and the number of those beds not occupied, in each military department, will give a bird's-eye view of what the Government has done in this respect:

The name of each hospital and the name of each medical officer in charge can be given if required. Such was the state of affairs in December, 1863. Each hospital has its complement of medical officers, and abundant supplies of every kind. And the mode of obtaining supplies is so simple and plain, and the facilities for doing so are so great, that any medical officer in any branch of the service at this late day, who has not a complete supply sufficient for the command to which he is attached, or for the wounded and sick under his charge, is inexcusable, unless the elements have prevailed against him. To carry the wounded and sick from the field hospitals to the general hospitals, the Government has provided ample means in the form of ambulances and railroads by land, and of steam transports by water.

A general statement of the organization of the medical department in the field will also show how ample is the provision made by the Government for the casualties of a battle.

Each army in the field consists of one or more army corps. It is commanded by a General, and his staff includes, necessarily, a Medical Director, who has the general supervision of the medical and hospital department of that army; and a Medical Purveyor, who has in his immediate charge all the medical and hospital supplies, in ample quantities for its use. All these supplies are furnished by the Government.

The army corps is the unit of organization for the medical department of that army. The General commanding the corps has included necessarily in his staff the Medical Director of the corps, whose duty it is to supervise, inspect, advise and direct, specially, the medical officers of his army corps; to organize, locate and supervise the field hospitals, and to direct the ambulances of the corps.

An army corps has in it at least two divisions, each division has three brigades, and each brigade several regiments. Each regiment has three medical officers—one surgeon and two assistant surgeons. From the medical officers of each division are selected, with great care as to their fitness for the special duties to which they are now to be assigned, fifteen, to be organized into what is termed the division field hospital. It is constituted as follows:

One surgeon in charge.

Three operating surgeons.

Three assistant operating surgeons to each operating surgeon.

One recorder, whose duty it is to keep a record of the name, rank, company, &c., of each wounded man, and a full history of his case; to have the dead buried; and to have a head board, with the name, &c., placed at each grave.

One Commissary and Quartermaster, whose duty it is to seize and prepare all houses or places for hospitals, to obtain straw for the beds, provisions and clothing for the use of the wounded, all necessary tents, and all transportation necessary, &c., &c.

The medical officers of this organization march with their regiments, and discharge their regimental duty, until immediately before a battle, when, by an order emanating from the Medical Director of the corps, who accompanies the General commanding the corps, they fall out, seize such places as are indicated to them by the Medical Director or the surgeons in charge, and there establish the division field hospital. It is always in the immediate vicinity of the battle-ground, or upon it.

Each division has about thirty ambulances, or three to each regiment; each ambulance has one driver and two attendants, and carries two litters. The Division Ambulance Corps is commanded by a Captain, First and Second Lieutenants, and Sergeants. It is the duty of the ambulance attendants to secure the wounded whenever the firing lulls or the line of battle advances, and convey them to the ambulances, which approach so near as to be often under fire. Each regiment goes into the fight with at least one medical officer, oftener two, with their stewards and hospital attendants, who are packed with hospital knapsacks well stored with medicines and dressings. He himself carries strapped upon him, and in his hands and pockets, stimulants, styptics, ligatures, opiates, bandages, sponges, and his pocket-case with all its needles armed. His duty is to superintend the removal of the wounded by the attendants and ambulances; to administer such medicines and remedies as may be necessary at the time, and to give encouragement to the wounded. Careful inspection of these supplies are made before the move to battle, to insure their being ample and in proper condition.

To each brigade there is one medicine wagon, full of supplies, and which is replenished, when necessary, from stores of the Medical Purveyor accompanying the army in the field. The wounded are transported in the ambulances to the division field hospitals, where they are dressed, the necessary operations are performed, and taken care of until they are able to be transported with security to general hospitals, to which they are sent with every necessity that they could need.

All this is done by the Government, and forms part of the regular system of army operations. We have made this simple statement of facts, in order to disabuse the public mind of an impression quite as injurious to the country as it is unjust to the service.

Popular Fallacies Regarding Taxation.

The Committee of Ways and Means of the House of Representatives is at present engaged in perfecting bills for the revision of our Tax and Tariff Laws. But notwithstanding the fact that they are so engaged, there is a feeling prevalent that they will not come up to the needs of the hour, and unsparingly apply taxes where they are needed.

One of the greatest fallacies into which many are beguiled is, that the imposition of taxes in addition to those already imposed, will bear too heavily on the people. Let us look at this subject. Since the beginning of the present rebellion our expenses as a Government have been enormous and constantly increasing. One of the first questions arising at the outset of the war was how to provide the means necessary for its prosecution. To defray the expenses of the war, it was found necessary to make large issues of paper money. The result has been that, with this issue, the difference between the value of gold and the value of paper money, has constantly increased, until now it has reached a point varying between 60 and 70 per cent. Among the first of the effects produced was the suspension of specie payments, in redemption of notes, by both banks and Government. As long as specie payments were made, the value of notes gold would of course be the same. *But when it became a law that the notes should be a legal tender instead of being* payable in gold, the difference in their value and that of specie commenced. The notes thus far issued have been under laws making them a legal tender, consequently all purchases, when a special agreement has not been made to the contrary, are on the basis of payment in legal tender notes. The result of this change from a specie to a paper money currency, has been to increase the price of every commodity in accordance with the difference in the value of gold and notes.

It will be admitted by all that an increasing national debt, without the passage of laws providing for its payment, will tend further to increase the difference between gold and legal tender notes, and that such an increase will make a proportionate one in the price of all needful articles. Now, which will bear most heavily on our population, an increase of three per cent. in the taxes imposed on manufactures, an increase of a dollar a gallon on whisky, a large increase in the tax on tobacco, and a general and large increase throughout *the whole list of taxed articles*, or a persistent adhesion to the doctrine that the taxes are already too high, and that the people will not be able to stand greater ones, by which the premium of gold and the price of every article of consumption will be greatly increased? The result in the one case would be but a small additional cost to the consumer, in the other a very great one.

It is not the merchant, the banker, the owner of many houses, the rich man, that pays these taxes. The merchant increases the price of his goods when a tax is imposed, the landlord adds to his rent, and so with all those who have a regular business; and it is from the poor man, the consumer and the tenant, that the taxes come in the end. They have a deep interest in this subject of taxation, and they cannot too often be impressed with the information that in times like these the imposition of heavy taxes is the cheapest and best expedient which could be adopted.

Amusements.

ITALIAN OPERA.—"*Faust*" will be produced for the twenty-third time, this evening, at the Academy of Music, with its brilliant cast, when a full house may be expected.

To-morrow (Saturday) evening PETRELLA's fine opera of "*Ione*, or The Last Days of Pompeii" will be given, for the benefit of the favorite tenor, Sig. MAZZOLENI.

A FINE PORTRAIT.—Mr. FAGNANI, well known as one of the ablest and most successful portrait painters we have ever had, has painted a very excellent likeness of the editor of the TIMES, which may be seen for a few days in the window of SCHAUS' superb Gallery of Fine Art in Broadway below Eighth-street. We have already mentioned the handsome gift of Mr. FAGNANI to the Metropolitan Fair of his superb portrait of RICHARD COBDEN. We understand that one of our prominent bankers offered $1,000 for it, intending to present it to the Chamber of Commerce. It ought certainly to be secured for some public gallery.

Card from the St. Nicholas—A Handsome Gift.

To the Editor of the New-York Times:

ST. NICHOLAS HOTEL, Thursday, April 7, 1864.

We find, in your issue of yesterday, remarks made by "Fair Dealer," accusing the New-York hotels of illiberality toward the Metropolitan Sanitary Fair.

We ought now, in justice to ourselves, to inform you and "Fair Dealer," that we drew our check for $1,000 on the 24th of March, as a donation to this praiseworthy object. Besides this, we are entertaining, free, committees to the fair from neighboring cities, and have contributed in various ways, as all good loyal people ought to do.

Yours, very respectfully,
SPOTTS & HAWK.

ANOTHER HANDSOME GIFT.

The following correspondence explains itself:

NEW-YORK, April 2, 1864.

Mr. A. Morton, No. 25 Maiden-lane:

DEAR SIR: I regret extremely that the restricted space allotted to our department at the fair does not allow us to find room for the liberal donation of your show case, filled with gold pens, the counters being already filled to repletion.

I regret this the more as your offer was the first made to the committee.

Yours, truly, P. MARIE,
Chairman Committee of Jewelry.

Mr. Morton's Reply.

NEW-YORK, April 7, 1864.

DEAR SIR: Your favor of this morning is received. I rejoice to hear that the offers of jewelry to the fair are so numerous, but I trust that, although you are unable to receive the contribution which I offered, you will allow me to inclose instead of the same my check for $1,000.

I should regret to be wholly deprived of the privilege of contributing to so noble an object.

Yours, truly, A. MORTON.

P. MARIE, Esq., Chairman Committee on Jewelry, &c., Metropolitan Fair.

The Stage Companies, Car Companies and the Fair.

NEW-YORK, Thursday, April 7, 1864.

To the Editor of the New-York Times:

A correspondent very justly addresses you on the propriety of the hotels contributing to the Sanitary Fair. Now, I think that from the stage companies and car companies something generous is due. If there are any patriotic gentlemen concerned in them, they will propose immediately to give one day's net receipts in aid of the U. S. Sanitary Commission. They have plenty of money. They won't miss it. Let them announce it. M.

A Sharp Way to Raise Money.

SOUTH EGREMONT, Mass., Tuesday, April 7, 1864.

To the Editor of the New-York Times:

May I be permitted to suggest, through the dear TIMES, a method of raising money at the Metropolitan Fair, which may assist in filling the apparent blank left by the abandonment of raffling. My plan is this: Let an auction stand be provided at which it shall be understood that all goods offered shall be actually sold to be highest bidder, but at which all bids made shall be payable.

In this manner the goods may pay handsomely, even if small prices are obtained, and lively and amusing bidding ought to be another result. This suggestion, believed to be quite original, is offered by D. H. R. G.

The City Reform Movement.

One of the flagrant, and, because of its flagrancy, almost amusing instances of the way in which the public moneys go, has been unearthed, among hundreds, by the Citizens' Association. The License Bureau is what is referred to, which is a bureau made solely for political paupers, and about as useful as the seventh—not the fifth—wheel to a cart. The incumbent takes from the City Treasury $2,500 a year, and does not one cent's worth of work. If he does, let him deny the assertion. He has drawn this amount ever since the bureau was created, and has not returned one cent's worth of service. It is a sinecure of the most shameful kind. The entire work of the License Bureau is and always has been done in the Mayor's office, at one-half the cost contemplated in the bill lobbied through the Legislature for this License Bureau. How Comptroller BRENNAN can sign monthly warrants for pay for duties which he well knows are not and never have been performed, puzzles those who attribute to him the characteristic of jealously watching the interests of the City and his own fair fame. This bureau will receive further attention, as will other departments whereby the "good old goose" has been and is being most scandalously plucked.

Gov. Bramlette's Visit to Washington.

From the Frankfort Commonwealth, April 4.

It is generally known that Gov. BRAMLETTE, accompanied by two other gentlemen of this State, on the 22d of March, left this city for Washington, for the purpose of visiting President LINCOLN, and consulting with him and the Secretary of War, Mr. STANTON, in reference to matters of vital interest and importance to the people of Kentucky.

The parties returned to Kentucky on the evening of the 1st of April, and it affords us great pleasure to be able to inform our readers that on Saturday evening last *we heard Gov. BRAMLETTE state that he was gratified at the visit, and with its results*; that he had been received with the greatest cordiality by President LINCOLN and Secretary STANTON; that he had frankly and fully presented to the President the objects of his visit, and as frankly explained his views and desires; that he was listened to with marked attention until he was through, and was then assured that he had not asked for anything but what was right and just, and that, so far as it was practicable and conformable to the law, there would be a full compliance with his wishes.

Secretary STANTON expressed himself to the same purpose; and when the Governor left Washington it was said that orders had already been issued to carry into effect the conclusions of the President and Secretary, as agreed upon between the parties.

THE POST-OFFICE—CITY DELIVERY.—Whatever temporary grievance may have been anticipated at the up-town Stations—Yorkville in particular—from the Postmaster's very praiseworthy desire to extend the house-delivery system, has been very speedily and satisfactorily remedied. It seems that no sudden change was contemplated, either in the withdrawal of the box privilege, or in the augmentation of the price of box accommodation. This much is due to the judgment and forecast of Mr. WAKEMAN, who, no doubt, properly understood the position of suburban residents, with many of whom prompt delivery is of the utmost importance. It is due, besides, *however, to Mr. PEASE, who has the important* station of Yorkville under his charge, to say that universal testimony is borne to the admirable facilities afforded both at the office, and by means of really trustworthy carriers, for an early and safe delivery of the mail. Nothing can possibly be better than *the present local management, whether as* regards the urbanity of the officers, or their desire, so far as superior orders and the exigencies of the Department will permit, to meet the pressing, and sometimes unreasonable, calls of the public.

BOSTON ALL RIGHT.—We are amused to find the NEW-YORK TIMES really vexed at our pleasantries on the subject of the arrangements for the fair in that City; and although the irritation thus betrayed might be regarded as proof that satire on the grandiloquent language of the New-York *Press* upon the subject was not out of place, yet, as jesting is dangerous with those too dull to see the point of a joke, we may as well declare in explicit terms that we do not believe there is a human being in Boston who does not honor the ladies and gentlemen in New-York for their patriotic exertions, and who does not feel a keen and unalloyed joy to hear of the magnificent degree of success likely to attend their great fair in behalf of the best of causes—one in which not only America, but all humanity is interest.—*Boston Advertiser, Thursday.*

SCHOOL EXHIBITION FOR THE BENEFIT OF THE FAIR.—The pupils of Ward School No. 52, at Tubby Hook, Twelfth Ward, gave an exhibition to their friends and patrons, for the benefit of the fair. This is one of the smallest schools in the City, and located in a very sparsely settled neighborhood, yet the receipts of the evening amounted to four hundred dollars.

ANOTHER OFFICE.—The American Telegraph Company have opened an office for general business at the Westchester House, corner of Bowery and Broome street.

FROM ALBANY.

The Drawing of the Palmer Marbles—Gen. Sickles on the Floor of the Assembly—The Sudden Death of Judge Drinker.

Correspondence of the New-York Times:

ALBANY, Thursday, April 7, 1864.

The distribution of the Palmer Marbles, drawn as prizes in connection with the Albany Army Relief Bazaar, took place in Tweddle Hall, of this city, last evening. As a part of the exercises of the evening, Maj.-Gen. DANIEL E. SICKLES was introduced to the audience, and spoke about thirty minutes. A part of his remarks related to the present condition of our armies, and our prospects for the future. He stated that we have at the present time a larger and better furnished and disciplined army than at any previous time during the war. His remarks were received with a good deal of enthusiasm.

A poem—a tribute of poetry to sculpture—by ALFRED B. STREET, was recited by Miss ANNIE WAITE. The style of the poem was exquisitely adapted to the subject, being remarkable for its chaste and classic beauty, more than for that warmth of expression to which the charm of many of Mr. STREET's poems is partly due.

The works of Mr. PALMER, distributed upon this occasion, were the "Bust of Hamilton," "Good Morning," "Peasant Girl," and "Angel of Peace in Bondage." One of these, "Good Morning," goes to New-York; another, "Peasant Girl," was drawn by Mrs. PETER CAGGER, of this city.

Maj.-Gen. SICKLES was invited to the floor of the Assembly to-day, and accepting the invitation, was welcomed by the Speaker, and responded briefly. He has accepted a similar invitation from the Senate, and will be received by them at five o'clock this afternoon.

The discussion of the Governor's Message was continued in Assembly last evening by Mr. BERGEN of New-York. Mr. ALVORD (Speaker) will continue the discussion on Monday evening next.

The sudden death of Judge W. W. DRINKER, of New-York, in one of the committee-rooms last evening, was an incident of painful interest. He was presenting an argument to the Committee on Cities, in relation to the New-York tax levy, when he fell and expired, without apparent cause. His death occurred at about 8 o'clock P. M. It is presumed to have resulted from a disease of the heart.

The business of the session is progressing slowly to-day. The Senate were in Executive session this morning, supposed to be considering appointments made by the Governor.

The Death of Judge Drinker.

ALBANY, Thursday, April 7, 1864.

Correspondence of the New-York Times:

Last night Mr. AUSTIN DRINKER, of your City, fell dead while arguing a point before the Committee on Cities and Towns. He eat a hearty dinner—so hearty as to excite attention. On his way up to the Capitol he complained of feeling unwell, and his friend, on whose arm he leaned, went up a side street to avoid the direct ascent. He argued before the Committee against the grant of $15,000 to the Catholics, and while stooping to read from a document set forth by the New-York Common Council, he fell on the floor. Dr. FISHER, of New-York City, was near him, and came to the rescue, but life was in a moment extinct. The impassioned speaker, whose voice a moment before thrilled on the ear, was silent, and the active form was still as the marble busts that calmly looked down on the excited scene. All business was at once suspended. A brother of Justice DRINKER, some time ago, fell dead in nearly the same manner. His family, summoned by telegraph, came on and passed the body on its way to New-York.

I do not wish to indulge in personal remarks."

Mr. FIELDS—I don't object if it pleases the Senator to indulge in such remarks.

Mr. HASTINGS—I know my rights.

Mr. FIELDS—And I know mine.

Mr. HASTINGS—It is not the right of any Senator to get drunk and interrupt the proceedings.

Mr. FIELDS—If the Senator says that I am drunk he says that which is false.

Judge Barnard's Charge to the Grand Jury—His Honor's Opinion of the War and the Practice of Calling Names, with a Few Hits at the "Ring."

COURT OF OYER AND TERMINER—BEFORE JUSTICE BARNARD.

At the opening of the Court yesterday morning, the following gentlemen were sworn as the Grand Jury for the term:

JAMES G. KING, Foreman; William L. Andrews, Moses G. Baldwin, David Douglass, A. G. Dunn, John Dunham, Walter M. Franklin, A. J. Gilbert, James Kelly, Jr.; Gibbons Kelly, Ernest C. Korner, Abram B. Ludlam, Joseph Leggett, Jeremiah Lambert, C. V. B. Ostrander, Robert S. Place, Isaac H. Reed, Samuel St. John, G. G. Smith, James A. Smith, Michael Toomey, William C. Tallmadge, Samuel S. H. Vance.

The Grand Jury being duly impanneled, Judge BARNARD rose and charged them as follows:

JUDGE BARNARD'S CHARGE.

GENTLEMEN OF THE GRAND JURY: At the opening of every Court of Oyer and Terminer the presiding Justice is required by various statutes to call your attention to the consideration of such offences as may have been committed against their provisions. I am thus required by law to call your attention to the laws against lotteries, the taking illegal fees, interfering with an elector, a violation of the Excise Law, defrauding emigrants, and the Usury Law. Your duties, gentlemen, however, are not confined to the investigation of offences against these particular statutes, but extend over the whole area of criminal jurisprudence. I therefore invite your attention to all infractions of criminal law, and in this connection shall touch upon several of the most important subjects of criminal cognizance. The importance of promptly visiting offenders against the criminal law with the punishment due them cannot be too strongly urged. The criminal with the civil laws constitute the tire of the wheel of society. No infraction of them can occur without endangering the safety of the whole structure. A loose administration of the laws breeds crime as squalidness breeds disease. The offender against the criminal laws takes heart and proceeds on his course of crime with the boldness and confidence of one engaged in a lawful pursuit. The otherwise law-abiding citizen finding that the laws afford him no protection, repels force by force, and rights his civil injuries by force; thus by degrees society descends step by step toward anarchy, until those who have property to loose from the sheer necessity of the case, combine together and form by their combination a vigilance committee. It is true that in the beginning of the vigilance committees their acts are strictly contrary to law, yet as they proceed, they, as fast as they can, place themselves under the laws as they existed prior to the inception of the committees. This has been their invariable history. The necessity of laws for the preservation of society is apparent from the fact that every associated body of men, down to even an association of brigands or pirates, finds it necessary to have rules and regulations, and to enforce obedience to them; and it is observable that the moment the body becomes unable to enforce obedience to its laws, that moment its dissolution commences and finally takes place. The right of resistance by force to a law on the ground that it is unjust or unconstitutional can never be admitted, for if it were there would be an end to all government by law. Each individual could set himself up and resist a law by force, and upon the same ground could resist a judgment of any court. This, of course, does not apply to an act done without color of law, or to an act done under a law by a person not authorized by that law to do it. In such cases there may be resistance. It thus appears that it is the duty of every good citizen to obey the laws; and yet there is one law which a vast number of good citizens constantly break, and which they make use of all kinds of expedients to evade. That is the law requiring the performance of jury duty. This duty is one of the most essential ones that the good citizen has to perform. If he refuses or neglects to perform it, it devolves on the bad citizen; and then commences that loose administration of justice that tends to anarchy and vigilance committees. This the good citizen who neglects his jury duty has to answer for. Equally important with this duty is the duty of properly exercising the elective franchise. The taxation of the City of New-York has become so enormous that I deem it my duty as well as the duty of every Judge who presides at a Court of Oyer and Terminer to call the attention of the Grand Jury to the subject, so that not only each individual grand juror may take the matter into serious thought; but that each grand juror may also bespeak the serious attention of his friends and acquaintances to it, and thus disseminate throughout the community such a sense of their duty as electors as to apply the only remedy which exists. A few years since a body of unprincipled and corrupt men banded together for the purpose of controlling the legislative branch of the City Government by their votes, forming what is now known as the "ring." It is still in active operation. There is no scheme, no matter how corrupt or wicked, but what will pass through provided a sufficient pecuniary inducement is brought to bear; and no measure, however meritorious, is sufficient to become a law unless a like influence is used. They seek to control every branch of the City Government. There are men also who band together and live by the presentation and collection of fraudulent claims against the City, originated in fraud and carried through by perjury. The remedy lies with the people themselves. As long as they abstain from voting, or vote for unworthy men, just so long will the taxes of this City go on rapidly increasing, until in a few years it will amount to a confiscation of property. If the community are desirous of preserving their property, they should begin at once and organize themselves into associations for the purpose of effecting municipal reform. Of the fifteen millions of dollars which it will be necessary to raise for the taxes for the ensuing year, it is safe to say that one-quarter of it will be either squandered or stolen. For some time past it has been the constant practice of a portion of the individuals connected with the City press to stigmatize all who differed with them in their views as to any acts of National Administration, as Secessionists, with the intent to degrade them in the eyes of the community by holding them out as traitors to their country, and so to leave them with a reputation as unlike as that of BENEDICT ARNOLD. This, I charge you, constitutes libel. Perhaps, in some few instances out of thousands, a charge may be true and publication of it be for a justifiable purpose, but this does not excuse the parading before the world of a man as a traitor because he dissents from some views entertained by a newspaper, or ventures to doubt the propriety of some measures of the Administration. Government is one thing; administration is a totally different thing. The theory of a Republican Government is that it is controlled by the will of a majority of all the people as signified by the ballot box. If, therefore, a majority of the people should signify their will through the ballot box that the present war should no longer be prosecuted, that majority, although they may have mistaken the true policy, cannot be justly said to be traitors to the Government. It is of the essence of Republican freedom that every citizen should have the untrammeled right to endeavor by his vote to have those measures carried out which he considers most conducive to the welfare of his country. But does this freedom stop here? Is he confined to dropping his silent ballot? Is his mouth gagged? Certainly not. The right to express his views by ballot carries with it the right to induce by fair argument and persuasion, others to adopt his views. The prevention of interchange of any body governed by the will of a majority would, indeed, be tyranny. Next to the interference with elections and the dragooning of voters by military power, nothing is a surer index of the downfall of a Republic than the total prevention of an interchange of views, or the prevention of expression of any views other than those in support of some proposed measure or candidate for office. This is essential to the political freedom of a Republic that every citizen should have the full right to express his views on any political measure or any act of administration, and endeavor, by act or persuasion, to bring others to adopt his views. Anything which disturbs this right, whether it be by armed interference, or by printed articles, holding one up to public obloquy for entertaining any particular opinion, tends to sap the very foundation of a Republic. It is for these reasons that I view the indiscriminate application of the epithet Secessionist to all who do not yield implicit faith to every act of an Administration—to all who do not subscribe to the particular tenets of some public journal—as extremely pernicious and deserving of your attention. Although the right to express one's views, and to endeavor by argument and persuasion to win others to adopt them, is so essential to the preservation of the Government, and should be sacredly guarded and kept inviolate, yet the majority have a right which is equally essential to such preservation, and should be just as sacredly guarded and kept inviolate. And that is the right that the minority shall not oppose their constitutional measures in any way other than by such expression of their views, and by such endeavors by argument and persuasion to win others to adopt them. This is a right which a majority possesses at all times; and if there is any one time at which it should be more sacredly guarded than at another, now is that time when the country is engaged in a fearful struggle. Any infraction of this right should at a time like this be visited with prompt punishment, and frowned upon alike by the minority as by the majority. Neither the minority, nor any portion of them, have a right to furnish supplies or arms to those contending against the General Government. Nor have they any right to withhold either supplies, money or their persons from the support of that Government. They may express their views as against the policy of prosecuting the war, as against any particular act or measure of the Administration; but, so long as the acts and measures of the Administration do not themselves tend to subvert the Government, they are bound in duty to afford a cordial support of the war and the other measures of the Government until they can procure a change of policy by the legitimate exercise of the elective franchise. During the present conflict there have undoubtedly been, and undoubtedly still are, men in the Northern States, men in the ordinary walks of life, men high in civil and military stations under the United States Government, and men high in civil positions under the State Government, who, while openly professing adherence to the United States Government, have secretly done all in their power to give material aid to the Southern rebellion, and to obstruct and weaken the national arms; some by divulging the military plans of the Government; some by running the blockade; some by furnishing worthless arms, ammunition and vessels, with the hope and desire that by reason of such worthlessness the Southern forces may obtain an advantage over the Northern armies; some by inducing and persuading men not to enlist; some by placing obstructions, even to the extent of fomenting resistance by force, in the way of the Government procuring men. These are all traitorous acts, and should meet with the censure of all, and adequate punishment. Again, some by so fraudulently fulfilling contracts as to make the government pay an extremely exorbitant rate for the articles furnished, do, in fact, render aid to the Southern rebellion by diminishing the resources of the Government for carrying on the war. These last may, perhaps, never have viewed their acts in this light. But their conduct, irrespective of the fraud, is highly reprehensible; for at a time when their Government needs all their support, they should, instead of seeking to amass large wealth at the expense of the depletion of the governmental treasury, take and fulfill their contracts at reasonable living rates. More especially reprehensible are those who, devoid of humanity, added to the privation, toil and hardship of the soldier risking his life in the battle-field for the cause of the Union, and the discomfort arising from the want of raiment, by furnishing under contract clothing of such flimsy material as would not stand a week's wear. I do not mean to be understood by my remark that if a majority of the people should vote to discontinue the war their will would have to control, as intimating that in my view any such event is likely to occur; upon the contrary, I am of the opinion that the people of the North have determined that this rebellion shall be subdued, at all hazards, and that the Union shall not be dissolved in any event. The feeling, however, is prevalent and daily growing stronger, that the mode of conducting the war must be changed. The removal by political arts for political purposes of tried and experienced Generals, and the substitution in their places of others either vastly their inferiors or wholly incompetent, must be stopped. Again, I say that, if this war is to be brought to any successful and speedy termination, the Administration, instead of calling for more dribblets of men, to oppose them to greater or equal, or even somewhat inferior forces, and then tiring the patience and wasting the strength of the North, should direct a levy en masse of all capable of bearing arms, in order that, by distributing the burden of a few months upon all equally, we may have an early peace, instead of a war lasting, with all its attendant horrors, longer than the life of the youngest person now living.

At the conclusion of the charge, the jury withdrew to enter upon their duties, and the case of NIXON, for the homicide of BROWN, was resumed, but counsel were unable to obtain a single juror. The court, therefore, adjourned until Tuesday morning, ordering that in the meantime 250 additional jurors be summoned.

The County and Town Frauds on Recruits IMPORTANT ORDER OF GEN. DIX.

The frauds which the County of Richmond, the town of West Farms, and others have induced the practice of on recruits, have resulted in the following important order from Gen. DIX. It will effectually put an end to the official outrage:

HEADQUARTERS DEPARTMENT OF THE EAST,
NEW-YORK CITY, March 25, 1864.

GENERAL ORDERS, No. 22.—The attention of the Commanding General has been called to the fact that the County of Richmond, New-York, the town of West Farms, Westchester County, New-York, and several other towns within the limits of this department, have made provision for a bounty of $300 and upward, to be paid to persons enlisting in the military service of the United States, and that the corporate authorities of said counties and towns have provided that at least $100 shall be paid to the recruit, leaving the disposition to be made of the balance ($200, or upward, as the case may be) undefined, and to be bargained for by the recruit and the bounty-broker, usually with fraudulent representations on the part of the latter. The result is, that the person presenting the recruit for enlistment gets, in many cases, $200, or more, and the recruit only $100.

As numerous deceptions and frauds on the recruits necessarily occur and are daily occurring, under such an arrangement; as it is an outrage on the tax-payers, who intend that the money levied upon their property, shall go to the recruit who perils his life for his country, and not to the bounty runner who stays at home, and to whom the United States pays a liberal and fixed compensation for his trouble in procuring the recruit; the Commanding-General hereby orders, that all Provost-Marshals and enlisting officers, shall refuse to enlist on behalf of any county or town, making such or similar indefinite provision as is hereinbefore referred to, unless such Provost-Marshal or enlisting officer, shall be convinced that such recruit has actually received the full amount of the bounty raised in such county or town; and such recruit will not be allowed to part with any portion of his said bounty, to any person for any pretended services in enlisting him, or any pretended service to him after his enlistment, even though an agreement be shown; such agreements being almost always fraudulent, without consideration, and contrary to public policy.

It is the unalterable determination of the Commanding-General of the department to protect recruits from the frauds practiced upon them, and to punish the offenders, if he can reach them—being fully convinced that nothing can be more discouraging to enlistments, or more disreputable to the community, than the depredations which have recently been committed upon persons enlisting into the military service.

Wherever, therefore, a certain amount per man is levied upon a county or town as bounty, he will hold that this amount shall be paid to the recruit, and that any other appropriation of it is unlawful. If the county or town authorities raise money to pay the expenses of recruiting, as well as for bounty, then the amount they appropriate for each purpose should be distinctly and specifically stated; that is, so much as bounty to each recruit, and so much for the person who presents him. If they say in so many words, as one county has done, that the recruit shall have $300, and the man who presents him $100, in addition to the fixed sum paid by the United States, however unjust such a distribution may be to the recruit and the tax-payers, there is no authority to interfere with it. The only remedy for the recruit is to enlist where he is more liberally treated, and for the tax-payers to place their money in the hands of men who will not lavish it on runners and bounty-brokers.

By command of Maj.-Gen. DIX.
D. T. VAN BUREN, Col. and Asst. Adjt.-General.

BRANDRETH'S PILLS.—WHY ARE THEY so reliable? Because they are prepared by the lights and knowledge of an experience running through a period of one hundred and thirteen years. An eminent physician writes: "I have an extensive practice, and for thirty years have used Brandreth's Pills in all cases where an energetic purgative was required. I have always found them reliable, indeed more reliable than any other purgative of the Materia Medica, which I attribute to the care in selection and judgment used in preparing the same by Dr. B. Brandreth." See B. Brandreth on Government stamp, in white letters. Principal office, Brandreth Building, New-York.

TESTIMONIAL FROM ONE OF THE MOST RESPECTABLE CITIZENS OF NEW-YORK.

DEAFNESS AND CATARRH CURED.

No. 439 SIXTH-AV., NEW-YORK, Dec. 2, 1863.

I was deaf for several years, and hearing of the great cures performed by Dr. Von Eisenberg, I was induced to place myself under his care, and I am now happy to state that my hearing was entirely restored after a short treatment. I was also suffering from chronic catarrh, of which I was also cured by the skillful treatment of Dr. Von Eisenberg. I do but justice to the Doctor in stating that in treating me he displayed that skill and knowledge which have already procured for him such a deserved reputation, and that the principles which direct his system of curing Deafness and Catarrh are such as to render success certain, in my opinion. Many months have passed since Dr. Von Eisenberg restored my hearing, and it continues as good as ever.

CATARRH CURED.

READ!

I have been suffering for a long time from a severe Catarrh, with a continual dullness in my head, a tightness across my chest, a weight over my eyes, which were weak, watery, and very painful. My nostrils were constantly obstructed with a running fluid. That frequent sneezing, hoarseness of my voice, often attended with a fullness of my throat, great soreness, and a continual dropping. Dr. Von Eisenberg has cured me of all these disagreeable sufferings. I may, indeed, say that I feel a new life. The treatment of Dr. Von Eisenberg is as skillful as it is successful. It is in my opinion impossible to overrate the benefit I have received at his hands. I heartily recommend any one suffering like myself to place themselves under Dr. Von Eisenberg's care, with a certainty of being speedily cured.

READ.

HARLEM, July 23, 1863.

I have been deaf for over TWENTY-FIVE YEARS, and Dr. Von Eisenberg operated on both of my ears without the slightest pain—a thing that I could not believe could be done. I now hear well, and feel as I never felt for the last twenty years. The dexterity and skill with which the operation was performed evince the highest practical ability. I hear perfectly. It is now over a month since the operation, and I continue to feel as well as ever.

WILLIAM LIDDLE,
Harlem, 125th-st., between 3d and 4th Avs.

No. 126 ALLEN-ST., NEW-YORK, Feb. 3, 1863.

I have been completely deaf in one ear, and partially so in the other, for above seventeen years, with a dangerous discharge from both ears, combined with continual rumbling noise in the head, for which I have been treated by a most eminent practitioner in the City without the slightest relief.

I consulted Dr. Von Eisenberg, but I must candidly say that I had no faith in his success when I did so. It is, therefore, due to Dr. Von Eisenberg to acknowledge that I am entirely cured; also, that he displayed that skill and knowledge which have procured for him such an unrivaled reputation. As I have had an opportunity of comparing his mode of treatment with that of others, I can truly state that it is not only superior, but the principles which direct his mode of restoring the hearing are, in my opinion, certain.

JOHN TAYLOR.

NEW-YORK, July 20, 1863.

This certifies that my mother has been for some time afflicted with partial deafness, suffering from pain, and rumbling noises in the head, together with other indications of a *total loss of hearing*. Dr. Von Eisenberg removed from her ears a great quantity of matter, together with coagulated blood, relieving her instantaneously, and all without pain. It is with grateful thanks that I give this testimony to his skill.

CHRONIC CATARRH CURED.

READ.

NEW-YORK, March 26, 1863.

"This is to certify, that I have suffered from very severe CHRONIC CATARRH, with a dull heaviness in the head. I felt my nose completely stopped up accompanied by continual soreness of the throat, the chills stealing over me with occasional hot flashes, a great tightness of the chest and pain, so much so, that every one thought it was consumption. Having heard of the great cures performed by Dr. Von Eisenberg, I consulted him with but little hope of success. I am now happy to be enabled to add my testimonial to the great number already in the Doctor's possession, as to his scientific and successful mode of treatment, as he has shown in my case that skill and knowledge which have procured for him so great a reputation. I am so entirely restored to perfect health that I deem it sincerely recommend all sufferers from CHRONIC CATARRH and SORE THROAT to apply at once to Dr. Von Eisenberg with a certainty of being cured."

OFFICE OF THE MEXICAN PACIFIC COMPANY, TONTINE BUILDING, No. 88 WALL-ST., NEW-YORK, March 18, 1864.

To His Excellency Senor Dn. Matias Romero, Envoy Extraordinary and Minister Plenipotentiary of the Republic of Mexico, Washington:

DEAR SIR: The time has arrived when the serious attention of American capitalists is being turned towards the attractive field for enterprise, with means, presented by the vast mineral wealth of Mexico.

This has led a large number of gentlemen to manifest a desire to become interested in the grants held by this company in that country.

For their information, I beg leave to take the liberty of inquiring of you, as the official representative in this country of the Mexican Government:

1. Whether the grants held by this company will be at all times recognized and respected by the authorities of the Republic;
2. Whether any other similar grants have ever been conceded by the Mexican Government.
3. As to the mineral richness of the States to which these grants apply, and—
4. As to the desire of the Mexican Government to have American capitalists take part in the development of the resources of that country.

A reply at your earliest convenience is respectfully solicited.

I have the honor to be, sir, very respectfully, your most obdt. svt., E. L. PLUMB, President.

MEXICAN LEGATION IN THE UNITED STATES OF AMERICA, WASHINGTON, March 24, 1864. (Translation.)

Mr. Edward Lee Plumb, President of the Mexican Pacific Company, No. 88 Wall-st., New-York:

DEAR SIR: I have received the letter which, under date of the 18th instant, you have addressed to me, in which you inform me that the serious attention of North American capitalists is now being turned toward the favorable field for enterprise presented by the vast mineral wealth of Mexico, and that this has led a large number of persons to manifest a desire to become interested in the concessions that the company of which you are President holds from the Mexican Government, with reference to which you make of me four inquiries, that I proceed to answer in the order they are made:

1. The concessions held by the company which you represent, will, of course, be recognized and respected by the authorities of the Republic, because the decrees granting said concessions are in the nature of laws, which all of the authorities of the Republic must respect and obey.

2. I have no knowledge of any privileges similar to those possessed by your company, having ever been granted to any other company by the Mexican Government.

3. It would be necessary to enter into many details, improper for such a letter as this, in order to give even a slight idea of the mineral richness of the States that are comprehended in your concessions. It must suffice, therefore, for me to say that among all of the rich States *of the Mexican Confederation, the State of Guerrero is considered in Mexico to be one of the richest, although* perhaps, up to the present time, it has been the least developed.

4. The Mexican Government, which desires above all things the development of the vast material resources of the Republic, considers it one of its first duties to favor the establishment of enterprises both by natives and by foreigners, which have for their object to accomplish this important result.

It being, on the other hand, the policy of the Mexican Government to strengthen and draw closer the commercial relations of the Mexican Republic with the United States, it will see with particular satisfaction, the citizens of this country take part in Mexican enterprises, and contribute, with their industry and their capital, to develop the great sources of wealth of that Republic, to the mutual benefit of both nations.

I am, Sir, very truly, your obedient servant, (Signed) M. ROMERO.

NEW-YORK, April 4, 1864.

I visited this Mine in the month of December, 1863, accompanied by Guido Kustel, the most distinguished Metallurgist and Mining Engineer on the Pacific coast, for many years the Manager of the Ophir Works, and author of a valuable treatise on the "Processes of Silver and Gold Extraction," recently published in California. My opinion of the value and quality of this Mine is based on information derived from this gentleman, and on my own observations at the Mine.

The Mine is situated in Arizona, about three miles north of the northern boundary line of Sonora, and five miles distant from the celebrated Mowry Silver Mines; it is accessible at all seasons of the year, either by the way of Los Angelos, Libertad, or Guaymas. But little work has been done in developing the mine; enough, however, to discover the width and extent of the lode and determine the quality and value of the ores.

Where the shaft is sunk the vein is from four to six feet wide between lime-rock and garnet, running east and west, and exhibits galena or sulphuret of lead, carbonate of lead, zinc-blend and copper-pyrites; the richest is the sulphuret of lead, assaying one hundred and fifty-five dollars per ton; the vein has been prospected about half a mile. Mr. Kustel, in a letter addressed to the San Francisco owners, says: "The San Antonio lode appears, where the shaft is sunk, a good wide vein of ore, easy to reduce by fire, and will pay on an average, according to the proportions of the different metals, from seventy to ninety dollars per ton."

I believe there is an abundant supply of this ore, and that by an expenditure of a comparatively small sum of money, the mine can be put in a condition to produce 40 tons per day; if this ore averages only $80 per ton, the gross product of the mine would exceed $3,000 per day; the entire cost of mining, and reducing a ton of this ore will not exceed twenty dollars.

On the premises, about 200 yards from San Antonio lode, in a N. E. direction, there is a very rich copper lode, six feet wide; the ores which we obtained from this lode, considered a fair average, assayed 30 per cent. of copper and $76 in silver. Miners can be obtained in any number in the immediate vicinity, at about $40 a month.

The reduction works of the mine are three miles distant from the mine, consisting of a small engine and two furnaces. There is an abundance of wood and water for all purposes on the property.

I consider the San Antonio a very valuable Silver Mine, if worked with skill and energy, it will produce most satisfactory results. SAM. F. BUTTERWORTH.

LINES WRITTEN ON WITNESSING THE MAMMOTH STEREOSCOPTICON,
AT HOPE CHAPEL, No. 718 BROADWAY.
By BOOTHROYD FAIRCLOUGH, Tragedian.
Where Moscow's gilded minarets glare, amid her fields of snow,
Where London sends her vastness forth, and rears her sombre brow;
Where gaudy Paris courts the day, and silent Venice smiles,
And suns in splendor rise and set, amid Ægean Isles;
Where Egypt's ancient glories rise, and rolls her mystic stream,
Tremendous in their grandeur still, and awful as a dream;
Where wondrous Babel rose and fell, at dread Jehovah's word,
And nations cower'd in the dust, and trembled as they heard;
When fair Damascus shines afar, beneath the Asian dome,
The glory of the Orient—Imperial as old Rome;
Where Rome herself, the Queen of Earth, looks down on mortals still,
In ancient and undying pride, from each historic hill;
From sweet Killarney's placid lakes, to Seville's Moorish towers,
From Jungfrau's everlasting snows, to Mariposa's bowers—
Through every scene that Earth can show to fascinate the heart,
I passed, as one enchanted, by the magic touch of art!
In all their life-like splendor, too, my startled vision caught
The sculptur'd wonders of the world, by Phidian chisel wrought,
And gazing on those forms Divine, forgot the Artist's skill,
I could not deem the hand that shaped was but a mortal's still.
O, STEREOSCOPTICON, thou art Time's grandest *miracle!*

MUSICAL.

CHICKERING & SONS
MANUFACTURERS OF GRAND, SQUARE, AND UPRIGHT PIANO-FORTES, No. 652 BROADWAY.—The superiority of these instruments has of late been amply demonstrated by the voluntary testimony of the foremost artists of the day, who claim for them excellencies of tone and workmanship hitherto unobtained by any other makers.
Mr. GOTTSCHALK'S constant use of the NEW SCALE CHICKERING GRAND PIANO-FORTES has severely tested their musical qualities, and resulted in establishing the justice of the very flattering estimation in which they are held.

STEINWAY & SONS'
GOLD MEDAL GRAND AND SQUARE PIANOS are now considered the best in Europe as well as this country, having received the first Prize Medal at the World's Exhibition in London, 1862.
The principal reason why the Steinway Pianos are superior to all others, is, that the firm is composed of five practical pianoforte makers, (father and four sons,) who invent all their own improvements, and under whose personal supervision every part of the instrument is manufactured. Warerooms, Nos. 71 and 73 East 14th-st., between Union-square and Irving-place, New-York.

MASON & HAMLIN'S CABINET ORGANS, FOR FAMILIES, CHURCHES AND SCHOOLS—Recognized by the musical profession as greatly superior to Harmoniums, Melodeons and all other small organs. [See our illustrated catalogue for explicit testimony to their superiority, from a majority of the most eminent organists in America.] Prices, $85 to $500 each.
CAUTION TO PURCHASERS.—The great reputation which our Cabinet Organs have obtained, and the extensive demand for them, have induced dealers to advertise in some cases, quite different instruments as Cabinet Organs, and in others to represent to purchasers that Harmoniums and other reed organs are the same thing. This is not true. The excellence of our Cabinet Organs, which have given them their high reputation, are the result not merely of the superiority of their workmanship, but also, in large measure, of essential differences in construction, which, being patented, cannot be imitated by other makers. From these arise their better quality and volume of tone and unrivaled capacity for expression. Warerooms in New-York, No. 7 Mercer-st.

APRIL 1864

THE METROPOLITAN FAIR.

OVERWHELMING CROWD OF YESTERDAY.

THE ONE DOLLAR ADMISSION RESUMED.

FOURTH DAY.

Yesterday, the fourth day of the great fair, was one of the most pleasant days we have had this [illegible], and as a natural consequence the crowd was [illegible]. The fact that the price of admission was [illegible] to fifty cents, helped largely to swell the numbers, and long before the hour for opening the doors, Fourteenth-street was filled with a huge crowd, waiting impatiently for admission.

On Monday the buildings were filled, on Tuesday crowded, on Wednesday jammed, and yesterday [illegible] and overflowing. [illegible] the doors were opened and the rush [illegible]. Within an hour the buildings were so crowded that it was impossible not only to see the [illegible], but to move about; individuals were carried [illegible] at the pleasure of the crowd, entirely unable [illegible] for themselves or go where they wished. The [illegible], in view of these facts, have decided that [illegible], and until further notice, the price of admission shall be $1. One great object of the fair is, [illegible], the sale of goods, and when the crowd is [illegible], it is impossible for those who wish to purchase to do so. [illegible]

[illegible]

The Jewelry Department looks very handsome. The very valuable and beautiful articles here displayed attract great attention, and, considering their value and the great crowd, are very rapidly disposed of.

The two swords were, yesterday, as usual, continually surrounded with an anxious crowd, very many of whom cast their vote for their favorites. At the closing of the fair, Gen. McClellan was ahead for the army sword; during the day he received six hundred and thirty-one votes. Gen. Grant received five hundred and sixty-six; of the entire number of votes cast, Gen. McClellan has received a majority over any one person of one hundred and twelve. The contest for the navy sword is between Admiral Farragut and Commodore Rowan. The total number of votes cast is one hundred and ninety-five, of which Admiral Farragut has received one hundred and ten, and Commodore Rowan fifty-seven.

The soda-water stand, which was noticed yesterday, was very liberally patronized; it is astonishing how very thirsty people get after wandering through the fair, and what is more grateful to a thirsty mortal than a glass of clear, cool soda-water. The receipts from this source, judging from the size of the package of money made up at night, must have been very satisfactory.

The "Hating Eagle" has, from its peculiarity, created considerable curiosity, and nearly four hundred persons have already inscribed their names in the album which is to accompany it when it is presented to the President.

The restaurant was kept constantly filled, and did even a better business than on Wednesday. The dishes are all so well cooked, so nicely served, and everything connected with the department so admirably and systematically arranged, that it is a positive pleasure to dine there. The numerous pretty young ladies who superintend the tables add greatly to the enjoyment of the lunch, and take excellent care of the visitors; none go away dissatisfied. The receipts on Wednesday were about $5,000, and yesterday they must have reached nearly $7,000.

During the evening the building was completely jammed, there was not even standing room in the galleries. It was of course impossible for the visitors to see and examine the goods, and they were too crowded to enjoy the really excellent music furnished by Grafulla's Band. The crowd outside was nearly equal to the crowd inside, and it is thought there must have been at least twenty thousand people present. During the day and evening thirty thousand two hundred and forty-four people were in the building. The excellent arrangements made by Mr. Theodore Moss for the sale and taking of tickets prevented any confusion, and this immense number of people passed in and out as regularly and quietly and with as little trouble as if they were counted by hundreds instead of tens of thousands.

At about half-past 10 the drum corps beat the customary "tattoo;" at 11 "taps," and a few minutes later the building was empty, the lights put out, and quiet and darkness reigned.

The police found a great number of articles, which were, according to their rules, brought to the sub-station in the building, marked, numbered and put aside until called for by their owners.

Detectives McDougal and Bennett arrested two female pickpockets, but as no positive charge could be made against them they were allowed to depart.

FAIR BUILDINGS ON UNION-SQUARE—ENTERTAINMENT FOR THE CHILDREN—KNICKERBOCKER KITCHEN—UNION PARK, &C.

An entertainment was given yesterday afternoon in the Children's Department, by the children of the Tenth Ward Public Schools, under direction of Mr. Geo. F. Bristow.

The exercises consisted of musical selections, sung by the children, and an opening address delivered by Master Lockwood. The concert-room was crowded by an appreciative audience. The committee having this department in charge propose to have a performance in the concert-room every afternoon at 3½ o'clock, especially for children. Arrangements have been made by which the room can be darkened, for the purpose of exhibiting a mammoth magic lantern.

A concert for adults will be given every evening this week. The programme for next week has not been announced.

There is not the slightest diminution of the throng that crowd to see the Knickerbocker Kitchen. An entrance is opened from those buildings to Union Park. Swings have been put up and other amusements provided for the children. The fountain throws volumes of water high in the air, and altogether Union Park, on a pleasant afternoon, is one of the most delightful lounging-places in the City. It is astonishing how fashionable a resort it has become since admission to its inclosure has cost the sum of 50 cents.

Billiards.

THE GRAND MATCH FOR THE CHAMPIONSHIP—DUDLEY KAVANAGH, OF NEW-YORK, AGAINST PHILIP TIEMAN, OF CINCINNATI—A LARGE SUM STAKED ON THE RESULT.

For many years there has been no event in the billiard world which has occasioned so much excitement among the devotees of the game, as this match for the championship, which occurred at Irving Hall last evening. It will be remembered that each party has long been considered invincible in their respective localities; and, after Kavanagh's victory over [illegible], of Detroit, in October last, the universal expectation was, "now, if he can vanquish Tieman, it will be hard to wrest the championship from his grasp." This match was made immediately after the above was decided, and was at first set down for the 11th February last, but owing to unusual circumstances it was forced to be postponed until last evening.

Mr. Tieman arrived in this city on the 20th ult., and has since continued a strict regime of practice. One of the remarkable points of this encounter is the amicable social relations which exist between the contestants. They have ever been close personal friends, and nothing short of a trial for the championship could have induced either to meet the other in a money contest over the green-covered table. Instead of Tieman seeking privacy in his practice since his arrival in this City, all his playing has been in public, and a large portion with Kavanagh himself. [illegible] a like cordiality between [illegible] in a like combat.

Neither party was in first-rate physical condition. Tieman is much afflicted with rheumatism, and although he was in fair health on his arrival here, yesterday morning, his left wrist was much swollen, and he complained of considerable pain. Kavanagh has not wholly recovered from his recent severe attack of [illegible]; and to add to his discomfiture, he had the misfortune to split the point of his favorite cue yesterday afternoon. This latter event was looked upon by Kavanagh's friends as an unlucky harbinger, and disheartened them considerably.

The doors were opened at 7 o'clock, and long before the playing commenced, the hall was filled to its utmost capacity. In the audience we noticed some [illegible]. Cincinnati, Detroit, Chicago, St. Louis, Washington, Baltimore, Philadelphia, Boston, Hartford, Albany, and all the large cities and towns were represented. All the principal billiard celebrities in the City and vicinity were also present. We observed Foy of Rochester, Bird, Tayler and Palmer of Philadelphia, Baron Bowman, [illegible] Johnson, Reed and Palmer of Cincinnati, [illegible]

[illegible] Jersey City, N. Y.; Deery and Geary of Washington; McElroy of Baltimore, Wilmarth of Boston, [illegible] of Toronto, Mason of Albany, Wolton of Hartford, Benjamin of Bridgeport, Miller of St. Louis, McElroy of Poughkeepsie.

RESULT OF THE BILLIARD MATCH.

Kavanagh the [illegible] by 300 points. Innings: [illegible] Kavanagh 300, Tieman 68. There was [illegible]. The audience remained until the close of the match at 2 A. M. The lateness of the hour prevents our giving the full report.

ONE DAY LATER FROM EUROPE.

Arrival of the Kedar at Halifax.

HALIFAX, Thursday, April 7.

The steamship *Kedar*, from Liverpool, March 26, arrived at 6 o'clock this evening.

She brings the following additional news:

LONDON, Monday Morning, March 28, via QUEENSTOWN.

The *Morning Post*, in a leader on Poland and Denmark, says: "We shall be glad to discover that no holy alliance exists to crush the liberties of Europe just as we should wish to learn that the hostility of Germany to the words of Denmark was promoted by sympathy with compatriots, and not by the abhorrence of liberal views on the one point or on the other. However, we lack the information to justify us in drawing the wished-for inferences."

Berlin letters mention that Prince Hohenzollern Sigmaringen has left for the seat of war, to endeavor to effect a reconciliation between Frederick Charles and Marshal Wrangel.

The Maryland Election.

BALTIMORE, Thursday, April 7.

Talbot County gives 300, and Caroline 250 for the convention and unconditional emancipation. Worcester County is incomplete, but no doubt has gone for the convention and emancipation. Dorset gives 300, Kent 200, Queen Anne 650, and Somerset 400 against a convention and for the Democratic ticket. Howard County has gone for the convention. The delegation is uncertain. It is thought it will be one Conservative and two Radicals.

Up to this evening, the returns do not change the general result as estimated last night. There will doubtless be a good working majority for unconditional emancipation.

From Fort Monroe.

FORT MONROE, Wednesday, April 6.

The schooner *Mary Parker*, from Cherrystone [illegible], bound to New-York, experienced heavy weather, and returned to Fort Monroe last evening in distress. She lost both anchors.

The schooner *William A. Ellis*, New-York for Washington, put in here for assistance. She reports, April 2, 25 miles off Cape Henry, encountered a heavy gale. The jib-boom was carried away and three men washed overboard. This morning another deck-hand was lost.

FORT MONROE, Tuesday, April 5.

The steamer *New-York* left this forenoon for City Point, under flag of truce, in charge of Maj. JOHN E. MULFORD, taking up about thirty women and children.

The storm continues with great severity. The Yorktown boat has not made her usual trip to-day.

THURSDAY, April 7—P. M.

The Customs demand for Gold was supplied to-day by sales from the Treasury at 165 ₩ cent., and the same rate will hold good for all this week and next. This is 1½ ₩ cent. below the rate of yesterday. As there is no export demand, at present, the speculators in the Gold Room yielded to a corresponding reduction in the open market. The rates of Exchange on London are unsettled for Saturday's steamer.

The market for Money to Stock Exchange borrowers is sharp 7 ₩ cent., with a good deal of running about to borrow on the inflated Railways and fancy Coal and other Mining Shares. The difficulty thus far has reference more to the points of discrimination in collateral and the delay in certifying Brokers' checks at Bank, than to the scarcity of Money. The diversion of speculation *to the score or two of Mining Schemes brought* upon the market, and upon which no Money at all can be borrowed at Bank, is absorbing a considerable amount of Broker balances.

The new subscriptions to the 10-40 Loan to-day are:

At Treasury office	$197,000
First National Bank	205,400
Together	$402,400

The sales of Gold at the Treasury to the Importers amount to $404,000. The Customs paid in, $259,000. The Treasury holds, this afternoon, $26,268,000 in Gold and Silver.

We learn, authentically, from Washington that the New Loan, 10-40 years, 5 ₩ Cent., is being taken up throughout the country at the rate of a million ₩ day. Day before yesterday the subscriptions amounted to nearly two millions. We cannot too strongly commend this Government *Gold paying security* to popular favor. The subscribers to the 5-20 year 6 ₩ cent. Loan are now reaping the reward of their generous confidence in the Public Credit of the United States. No class of Investments at the Stock Exchange, *for certain income*, are paying so well, on market price, as this Loan, recently absorbed at par. The May half-yearly coupon for $30 on each $1,000 Bond is worth to-day $50, or at the rate of *Ten per cent.*, free of all local taxation, ₩ annum. And no class of security will stand so well the general return of the country to Specie payments. The same remarks apply to the new 10-40 year 5 ₩ cent. Loan. The income in Currency is over *eight per cent.* per annum, and it is certain, under all circumstances, for 5 ₩ cent. in *Gold*. The principal is pledged by the Act of March 3, 1864, to be paid in Gold. But aside from this specific pledge, the United States Government has never paid off its Funded Stocks otherwise than in Gold or Silver. The takers of the new Loan need feel no apprehension that a higher rate of interest will be paid on any part of it to insure, what is already reasonably certain, its success at 5 ₩ cent. for the entire $200,000,000.

The Stock Exchange prices for the previous Government Loans show enhanced firmness. The 5-20s sold at 112 ₩ cent. The 5 ₩ cents, due next year, brought 157 ₩ cent., as equal to Gold, with the accrued interest on the 1st January next. The Loans due 3@4 years hence are wanted at 121@124 ₩ cent.

The Railway speculation was very firm to the close of the Second Board. Subsequently, on the Street, the market was adversely influenced *by a fall nearly twenty per cent. since last night* in Fort Wayne and Chicago. This break was not anticipated *to-day*, as the Bondholders, in general meeting, were expected to ratify all that had been promised in the way of transferring this non-dividend-paying *grub* into a full-blown ten per cent. *butterfly*. Where the hitch is, we are not yet advised. The Coal and other Mining Stocks called at the Board were higher on Quicksilver, lower on Cumberland, very erratic on Mariposa, four ₩ cent. up on International Coal, and steady on Central and Gregory of Colorado.

The prices on the Railway list at 4 o'clock were unsettled by the heavy fall in Fort Wayne and Chicago, which is under the peculiar charge of the leading Bull on the Street, who has been promising his followers 175 to 200 ₩ cent. for this Stock in, United States Currency, *because* this Currency and the Government Finances altogether are coming to grief, and the Stock itself promises 10 ₩ cent. Dividends. At the very close the other Railways were steady:

The last English mail brought the following from the London *Times* in regard to the Atlantic and Great Western Road:

"Proposals have been issued to the existing holders of bonds of the Atlantic and Great Western Railway for subscriptions for £405,000 additional bonds at the price of 70, which will yield interest in sterling at the rate of nearly 9 ₩ cent. ₩ annum, and for which they are entitled to a preference. The line has been completed within its estimated cost, and these bonds will constitute the whole of the mortgage debt to be created on the New-York and Pennsylvania divisions. Hitherto the road, although only partially opened, has yielded unusual profits, owing partly to the fact of its being in connection with the great oil district, but more especially from its forming the most convenient and direct route for the large and constantly increasing Western traffic from New-York. On its complete opening in May next, express trains will be run from New-York to St. Louis—1,200 miles, in forty hours, without break of gauge or change of carriages. A large business on the line is likewise being opened up for the supply of coal to Canada. The present bonds are to be redeemable in sterling at par, by means of a sinking fund, in nineteen years."

The following Railway earnings are reported for the month of March, all over Western lines, and all showing a large increase on the corresponding month last year:

	March, 1863.	March, 1864.	Increase.
Rock Island	$119,836	$198,119	$78,283
Michigan Southern	254,208	332,058	77,849
Michigan Central	*236,431*	*348,862*	*112,431*
Cleveland and Toledo	164,845	205,305	40,560
Ohio & M., East. Div.	146,000	200,000	54,000

It may not be out of the way just now to inquire, from *official* sources, how much Gold the Pike's Peak region (Colorado Territory) has yielded from the discovery of these mines to the close of the fiscal year 1863. The round calculations indulged in the numerous prospectuses of the Gold Mining Companies now on the market, of eight, twelve and twenty millions as the gross product in 1861, 1862 and 1863, respectively, do not seem to be borne out by the following Mint and Assay returns:

	At Philadelphia.	At New-York.	Total.
1859	$145,000	$3,244	$148,944
1860	346,604	248,981	595,585
1861	607,592	1,449,166	2,056,758
1862	1,122,333	912,403	2,034,736
1863	1,806,329	937,535	2,733,864
Total	$3,972,064	$3,552,629	$7,525,633

This is the sum total reported to 1st July last under the trade of Colorado. It constitutes, however, no conclusive argument against what *may be done*, with the new and greatly-improved machinery now being introduced by the properly-organized and practically-working Companies and mining firms in that region. Beyond the question of capital honestly applied and the machinery introduced, is one of *title* to the mines from the United States, which we presume will not be overlooked by prudent Associations.

The day's business at the Office of the Assistant Treasurer of the United States at New-York was as follows: Total receipts, $2,360,-292 05; for Customs, $332,000; total payments, $2,234,494 37; total balance, $37,898,917 94; 10-40s, $197,450.

The earnings of the Hannibal and St. Joseph Railroad were for the week ending

March 21, 1864	$49,026 75
March 21, 1863	18,172 87
Increase	$31,853 88

It has been from time immemorial the object of philanthropists to find some remedy for the ills of life, and scientific skill has for ages explored every avenue in order to discover the hidden secret. It has been, however, reserved for modern science to bring before the world the great destroyer of disease, and in HOOFLAND'S GERMAN BITTERS are concentrated all those virtues which tend to promote healthy and vigorous life. Unlike the generality of bitters, they are not an alcoholic mixture, but a pure tonic, composed entirely of vegetable substances. They are a positive cure for

DYSPEPSIA,

AND

DISEASES RESULTING FROM DISORDERS OF THE LIVER AND DIGESTIVE ORGANS, AND WEAKENED AND DEBILITATED FRAMES BECOME RENEWED WITH ALL THE VIGOR OF HEALTH.

The reputation of this preparation is not of a day, nor a month, nor a year, nor is it confined within a limited space, nor is it but known and appreciated by those who move in the circle of fashion and refinement. It is, on the contrary, world wide, and the triumphs of this article have blessed alike the rich and the poor, while like the snow that falls gently on the earth, so this friend of mankind causes its blessing to descend upon the suffering and afflicted. Its virtues are known in every quarter of the inhabitable globe, and the wonderful cures which it is daily performing have won for it the highest post in the temple of science. With such recommendations, backed by incontestible and undoubted testimonials from those who have experienced its curative properties, giving to the public no assertion but what has passed through the crucible of truth, and supported by an array of splendid and hitherto unknown triumphs, what wonder is it that thousands rush to it for relief in the hour of danger.

NEW-YORK TESTIMONY.

From John R. Wickersham, Esq., firm of Wickersham & Hutchinson, the celebrated manufacturers of fancy iron-works, No. 259 Canal-st.:

* * * * *

I am the recipient from you of one of the greatest favors that can be conferred upon man, viz: That of health. For many years have I suffered from one of the most annoying and debilitating complaints that the human family can be afflicted with, Chronic Diarrhea. During the long time I was suffering from this disease I was attended by regular physicians, giving me but temporary relief. The cause seemed to remain until I was induced to try Hoofland's German Bitters. After the use of a few bottles of that valuable medicine, the complaint appeared to be completely eradicated.

I often inwardly thank you for such a valuable specific, and, whenever I have an opportunity, cheerfully recommend it, with full confidence in its reliability.

Truly, yours, JOHN R. WICKERSHAM.

MESSRS. JONES & EVANS—GENTLEMEN: My mother-in-law has been so greatly benefited by your Hoofland's German Bitters that I concluded to try it myself. I find it to be an invaluable tonic, and unhesitatingly recommend it to all who are suffering from dyspepsia. I have had that disease in its most obstinate form—flatulency—for many years, and your Bitters has given me ease when everything else has failed. Yours truly, JULIUS LEE.

PHILADELPHIA, Oct. 7, 1863.

GENTLEMEN: In reply to your inquiry as to the effects produced by the use of "Hoofland's German Bitters" in my family, I have no hesitation whatever in saying that it has been highly beneficial. In one instance, a case of dyspepsia, of about thirteen years' standing, and which had become very distressing, the use of one bottle gave decided relief, the second effecting a cure, and the third, it seems, has confirmed the cure, for there has been no symptoms of its return for the last six years. In my individual use of it, I find it to be an unequaled tonic, and sincerely recommend its use to the sufferers.

Truly yours, JACOB BROOM, No. 1,707 Spruce-st.
